

BITUMINOUS COAL PRICES FIXED BY PRESIDENT EVERY MINE IN UNITED STATES AF- FECTED BY ANNOUNCEMENT

Prices Set On Cost of Production Estimates Fur-
nished By Federal Trade Commission After
Months of Investigation—Wilson Soon to
Appoint Coal Administrator, Probably Gar-
field—Illinois Prices Show Big Decrease—
Table of Prices Given.

PRICES AT MOUTH OF MINES

State	Run of Mine	Prepared Sizes	Slack or Screen's
Pennsylvania	\$2.00	\$2.25	\$1.75
Maryland	2.00	2.25	1.75
West Virginia	2.00	2.25	1.75
West Virginia (New River)	2.15	2.40	1.90
Virginia	2.00	2.24	1.90
Ohio (Thick Vein)	2.00	2.25	1.75
Ohio (Thin Vein)	2.35	2.60	2.10
Kentucky	1.95	2.20	1.70
Kentucky (Jellico)	2.40	2.65	2.15
Alabama (Big Seam)	1.90	2.15	1.65
Alabama (Pratt, Jaeger and Corona)	2.15	2.40	1.90
Alabama (Cahaba and Black Creek)	2.40	2.65	2.15
Tennessee (Eastern)	2.30	2.55	2.05
Tennessee (Jellico)	2.40	2.65	2.15
Indiana	1.95	2.20	1.70
Illinois	1.95	2.20	1.70
Illinois (Third Vein)	2.40	2.65	2.15
Arkansas	2.65	2.90	2.40
Iowa	2.70	2.95	2.45
Kansas	2.55	2.80	2.30
Missouri	2.70	2.95	2.45
Oklahoma	3.05	3.30	2.80
Texas	2.65	2.90	2.40
Colorado	2.45	2.70	2.20
Montana	2.70	2.95	2.45
New Mexico	2.40	2.65	2.15
Wyoming	2.50	2.75	2.25
Utah	2.60	2.85	2.35
Washington	3.25	3.50	3.00

Prices f. o. b. at mines.

WASHINGTON, Aug. 21.—Bituminous coal prices were fixed by President Wilson tonight for every mine in the United States. The next step in coal control, a White House announcement said, will be to fix the prices to be charged by middlemen and retailers.

Prices were set on cost of production estimates furnished by the federal trade commission after months of investigation. The country is divided into twenty-nine districts and every producer in a district will market his output at the same price.

The president named no agency to carry out the provisions of his order, but is expected to appoint soon a coal administrator who will be given entire control of the coal industry. Rumor tonight named President H. A. Garfield, of Williams College, as the man. Mr. Garfield now heads a committee named by the president to fix a government price for wheat. His work will end before September 1 when the wheat committee probably will be dissolved.

The prices named for run of mine coal in the large producing districts average slightly more than \$2. In a few districts they are below that figure and in the western territory it is higher. Washington is highest with \$3.25. For Illinois it is \$1.95, and for Illinois third vein \$2.40. The Iowa price is fixed at \$2.70.

The president's statement said:

President's Statement

"The following scale of prices is prescribed for bituminous coal at the mine in the several coal-producing districts. It is subject to reconsideration when the whole method of administering the fuel supplies of the country shall have been satisfied and put into operation. Subsequent measures will have as their object a fair and equitable control of the distribution of the supply and of the prices not only at the mines, but also in the hands of the middlemen and the retailers.

"The prices provisionally fixed here are fixed by me under the provisions of the recent act of congress regarding administering the food supply of the country, which also conferred upon the executive control of the distribution of the supply and are deemed to be not only fair and just but liberal as well. Under them the industry should nowhere lack stimulation."

The prices fixed range from twenty to thirty per cent under the max-

imum price of \$3 fixed by government officials and operators at a conference here more than a month ago. The \$3 price agreement, however, did not hold, as many operators refused to abide by it after Secretary Baker, as president of the council of national defense, repudiated as too high prices recently have ranged far above the \$3 limit.

Wilson's Second Step

The fixing of prices was the president's second step in the direction of coal control. The first was taken yesterday when the president named Robert S. Lovett, as director of transportation and approved an order issued by Mr. Lovett directing that coal shipments to the northwest be given preference over other goods.

Tonight's action was taken as an indication that the president has abandoned a plan originally considered which called for government requisitioning of the output of all mines, with the government selling the product to the public. This procedure was strongly recommended by the federal trade commission.

The president's order apparently makes no provision for a pooling arrangement, which had been suggested, under which mines would have been paid for their output on a basis of cost of production plus a per centage of profit.

Hardships on Small Mines

The plan adopted, officials admitted tonight, will work hardships on

many smaller mines and may force some to close down. This, it is claimed, however, will not reduce the coal output as miners released from the small mines will go to the large ones, and more cars can be supplied to mines of large producing capacity.

Officials who believe the president will name a one-man control of coal point to his desire that extraordinary powers given the government for war purposes be placed in organizations that can be dispensed with after the war is over. Many are of the opinion he will create an organization to handle coal similar to the food administration.

Operators from all the bituminous coal producing states met here today and organized the national coal operators' association. Delegates were present from state and other sectional organizations, representing some 700 operators whose annual production aggregates 200,000,000 tons.

An executive committee to direct the activities of the association was named as follows: H. M. Taylor, for Missouri; Rembrandt Peale, central Pennsylvania; W. K. Field, Western Pennsylvania; H. J. Davis, Tennessee; D. B. C. Honnold, Illinois; A. M. Ogilvie, Indiana; G. H. Parker, Ohio; J. J. Tierney and J. H. Wheelwright, West Virginia.

Address Operators
Francis Peabody, chairman of the defense council's coal production committee, addressed the operators and expressed hearty sympathy with their movement, which is a development of the conference of coal men held here in July.

Another meeting will be held tomorrow to perfect organization plans. Some of the avowed objects of the association, besides co-operation with the government, are conservation of coal by increasing the yield of the mines; prompt observance of state and national laws; installation of uniform cost-keeping methods and improved accounting system and promotion of proper relations between coal producers and carriers. It is announced that no part of the organization's machinery is to be used for the regulation of production or control of prices.

BEGIN EXAMINATION OF I. W. W. PRISONERS

Sessions Held in Jail by Maj. Clement Wilkins, Who Made Arrests—No Decision as to Releasing Prisoners.

Spokane, Wash., Aug. 21.—Examination of prisoners taken in a raid on the Industrial Workers of the World headquarters here Sunday was begun today in the jail by Major Clement Wilkins, who made the arrests, and district attorney, Garrecht. No decision as to releasing any of the prisoners was announced.

Just before the examination began Mr. Garrecht said he could see no reason for not holding James Rowan, district secretary of the I. W. W. who signed the order for a general strike, effective Monday of I. W. W. in four states, as a military prisoner, indefinitely.

"In the meantime the military authorities and the federal officers," said the district attorney, "will endeavor to connect him and other I. W. W. leaders with a conspiracy to give aid and comfort to the enemy."

So far only a few I. W. W. obeyed the strike order and most of them it was reported, returned to work today.

LAUNCH "HOME FRIEND" MOVEMENT

ROCK ISLAND, Ill., Aug. 21.—A home friend movement to include every man in the army and navy service of the United States engaged on foreign soil has been launched by the Rock Island chamber of commerce. Aside from members of his own family, each soldier and sailor will have as his home correspondent while he is at the front some man or woman who will volunteer to keep in touch with him. The correspondents pledge themselves to supply the boys with books, tobacco, etc., and to keep them posted on happenings in their home cities.

NEGRO K. OF P'S. IN SESSION.

St. Louis, Aug. 21.—Thousands of negroes from all parts of the United States were in St. Louis today to attend the supreme convention of the Negro Knights of Pythias, and its auxiliary bodies.

SEVEN MORE ARRAIGNED.

Chicago, Aug. 21.—Seven more men alleged to have evaded draft registration in Joliet were brought here today by United States Marshals, bringing the total taken from Joliet up to thirty two.

Governor Lowden Issues Proclamation

SPRINGFIELD, Ill., Aug. 21.—Young men of Illinois, drafted into the national army, will be made to feel the appreciation of those who remain at home when mobilization of the first quota takes place September 5th.

In a proclamation tonight Governor Frank O. Lowden urged public meetings on or before this date in every part of the state where the people may show the selected young men "that the gratitude, the admiration and the prayers of Illinois will accompany them wherever they go."

The proclamation follows:

"The president has designated Wednesday, September 5, 1917, as Mobilization Day for the national army. Let all honor be paid to the men who have been selected to form this army. They go to join the colors in order that we may be safe at home. They are the pick of our young men. The rigid examinations they were required to pass were such that only the names of sound, clean, wholesome young Americans will be found upon the muster rolls.

"It was not draft that placed their names upon the rolls. They were selected because the great republic found them fittest to serve in this hour of need. A volunteer army may appeal more to the imagination, but an army composed of men who were selected because they were found of all men within one republic the best fitted for service, is a hundred times more inspiring. When a republic can designate for national defense those of her citizens best qualified to defend it, the republic has found itself.

"All honor to these young men. Tho they go to fight upon foreign battlefields, they go to fight an American war. Our forefathers of the Revolution fought one great European empire to win freedom for the colonies. The greatest republic of all time has been the result of their efforts. We now find ourselves engaged in war with another great European empire to hold what our forefathers won. The men who go forth today with the battlecry of the soldiers of the Revolution upon their lips deserve as much of their country as did the men of Lexington and Valley Forge.

"I earnestly urge that our people, at such time before the fifth day of September, and in such way as they may locally determine, shall publicly show their appreciation of these young patriots. Let them go to the colors with the assurance that the gratitude, the admiration and the prayers of Illinois will accompany them wherever they may be.

(Signed) "FRANK O. LOWDEN."

OFFICIAL SUMMARY TO BE GIVEN SOON

War Activities of U. S. To Be Given Weekly

Secretary Baker Announces Statements Will Cover as Much as Military Advisers Deem Wise for Public to Know—Daily Bulletins to Be Given Later.

Washington, Aug. 21.—The first official summary of the war activities of the United States will be issued in a few days by Secretary Baker, to be followed thereafter with weekly statements.

In announcing his intention to begin issuing statements, Secretary Baker said he would go just as far as the military advisers of the government deemed it wise toward informing the public of what was in progress. The impression was given that the statements will not be confined exclusively to past action; but would probably contain forecasts wherever permissible.

When American troops get into action in France daily statements probably will be issued, founded upon the reports from General Pershing.

Regarding many rumors of disasters to American troops or shipping, constantly being circulated, Mr. Baker reiterated emphatically the pledge of the administration to withhold no news of misadventure from the public. The public may rest assured, he said, that no news means good news to that extent. Such rumors as have been current recently, he declared, were without any foundation whatever.

The extent to which naval happenings can be made public is a different matter. Secretary Daniels has promised that news of disasters will be given out with as little delay as possible, but it is not to be expected that the extent of damage to naval craft will be made known. The practice of all countries has been to keep the enemy as much in the dark as possible on such subjects.

INCREASED ACTIVITY AGAINST SLACKERS

CHICAGO, Aug. 21.—Increased activity against slackers, started today when a flying squadron of police, acting under federal supervision, was sent into all sections of northern Illinois to round up draft evaders. It is said every man who seeks to dodge appearance before an examining board is listed in a card index kept by Major B. M. Chipfield, in charge of the draft here.

GERMAN PUBLISHER INTERNED.

Little Rock, Ark., Aug. 21.—Curtis Ackerman, editor and proprietor of a German language paper published here was interned in the county jail here today at the direction of United States Attorney-General Gregory.

Ackerman was charged with publishing an article that was a direct encouragement to violation of the draft law.

MARINE METAL WORKERS ORDER GENERAL STRIKE

Representatives Decide On Action Following Mass Meeting

Machinists, Boilermakers and Blacksmiths Engaged in Marine Work Demand Minimum Wage Scale of 4.50 per Day—Shipbuilding Tied Up.

New York, Aug. 21.—A general strike of machinists, boilermakers and blacksmiths engaged in marine work in the port of New York, including the navy yard in Brooklyn, was ordered here today at a mass meeting of representatives of Marine Metal Workers. The strike was called to enforce settlement of a demand made six weeks ago for a minimum wage scale of \$4.50 a day. While no official action was taken to make the strike nation-wide, the apparently unanimous sentiment expressed by the men indicated that such was their desire, provided the issue was not quickly adjusted.

Thousands Attend Meeting.
The meeting was called by the marine trades council of the port of New York and was attended by men representing 30,000 union workers, mostly shipbuilding plants in this vicinity, the majority of which now are engaged almost exclusively on government work.

The resolution, passed unanimously, called out not only workers in plants which have not yet agreed to the demands of the men, but also those which have already done so, it being desired, as one of the speakers asserted, "to show the employers that we are united in our demands."

That the federal government has already taken notice of the situation was announced at the meeting with the statement that conciliators from the department of labor now are here.

"Rich Slackers" Scored
"Rich slackers" were scored by Senator LaFollette, who read a letter from a United Mine Workers' official of Illinois, addressed to himself and Senator Stone of Missouri, predicting that "the people's patience over the mounting cost of living had reached its limit and that congress should act or the people would."

The letter also said the people could not express their views on the war with the average man "bullied" into silence while armies are slaughtered in battle for the benefit of those desiring war because of enormous profits.

WILL CONSIDER COAL PRICES FURTHER

CHICAGO, Aug. 21.—Further consideration to coal prices will be given at a meeting on Thursday of the governor's and state councils of defense of the thirteen states represented at a conference here last week. This information was given out by the officials of the Illinois state council of defense, by whom the call was issued today. Samuel Insull, president of the Illinois council, said that since the last conference the delegates had been collecting further data as to conditions in their several states and that unanimity of action might follow the presentation of additional facts as to the coal situation.

NO SHORTAGE OF ARMS.

Washington, Aug. 21.—There is no shortage of rifles for the American forces sent to Europe although there may be some delay in equipping all men of the national army with the weapons they are to use in training. It was said officially today at the war department.

LAFOLLETTE SPEAKS ON WAR TAX BILL

Urges Conscription of Wealth to Pay for War

Presents Minority Plans of Finance Committee—Suggests Higher Rates on War Profits and Incomes Declares For Less Bonds and More Taxes

Washington, Aug. 21.—Conscription of wealth to pay for the war was urged in the senate today by Senator LaFollette of Wisconsin, in presenting the minority plans of the finance committee for higher rates in the war tax bill on war profits and incomes. He suggested increasing the \$2,000,000,000 bill to more than \$3,500,000,000 by such increases with elimination of consumption taxes. He also urged that less bonds and more taxes be authorized.

People Don't Want War

The Wisconsin senator declared governments were demanding war while their peoples were asking for peace and contended that 85 per cent of the men drafted are protesting. The liberty loan, he said, was made possible by an "iron hand with a kid glove" and persistent advertising methods.

The pending bill, Mr. LaFollette said, provides by taxes but seven per cent of this year's war expenses while Great Britain imposes 26 per cent. Next year's war expenses, he predicted may reach \$30,000,000,000 or \$40,000,000,000 and he urged that huge war profits and incomes be made to bear the burden of the war.

Urging a larger proportion of taxes, the Wisconsin senator said:

Wealth Never Sacrificed

"Wealth has never yet sacrificed itself on the altar of patriotism in war. It has ever shown itself eager to take advantage of the misfortunes which war always brings to the masses of the people. That is certainly true of the present war."

"It may be argued that the poor equally with the rich will have the opportunity to purchase war bonds. The late 'liberty loan' is a good example of bonds sold to the poor. All the machinery of the government was set in motion to sell these bonds to the small investor."

Bonds Poor Investment

"We all know the bonds were a poor investment to the man of small means in comparison with the advantages to owners of large incomes. The government has made them the equivalent of an investment paying from five to nine percent, and more to persons with large incomes who will escape the income tax on every dollar thus invested; while to the wage earner not reached by the income tax, this return is but 3 1-2 per cent."

"We are counseled by the highest economic authority, we are admonished by all history, we are commanded by every consideration of justice to the American boys who are marked for slaughter, to the American boys who come already in the shadow of death, to declare here and now by our votes on this record that the wealth of this country will be taken as mercilessly through the power of taxation as men are taken by force of the draft."

"If the billions of our people's money which we are now smilingly to the furnace of the European war were all we had to consider the question would not be so serious."

"But if this war should last another year or two years think what it will mean. It is not improbable that the entire income of all the people, intimated that thirty billion dollars will not equal the money cost of the second year of this war. By keeping down taxes and increasing bonds Senator LaFollette said the masses are being 'mortgaged to the money lenders.'"

"When bread lines shall be a familiar sight," concluded the senator, "as they are bound to be if the present price of the simple necessities of life is maintained during the coming winter, when cold and hunger are daily visitors in many thousands of homes which have known only comfort heretofore, a condition certain to exist during the coming winter months unless relief from present prices can be found, it will be small satisfaction, I think, to the members of this congress to realize that they have contributed to the want and suffering of the mass of people by refusing to place even an approximately fair portion of the financial burden of this war upon the rich."

"Rich Slackers" Scored
"Rich slackers" were scored by Senator LaFollette, who read a letter from a United Mine Workers' official of Illinois, addressed to himself and Senator Stone of Missouri, predicting that "the people's patience over the mounting cost of living had reached its limit and that congress should act or the people would."

The letter also said the people could not express their views on the war with the average man "bullied" into silence while armies are slaughtered in battle for the benefit of those desiring war because of enormous profits.

EDITOR DIES

Tolono, Ill., Aug. 21.—A. B. Campbell, editor of the Herald and cashier of the Citizens Bank, died this morning after a brief illness due to leakage of the heart. He was 45 years old. The funeral will be held Wednesday afternoon.

CABINET MEETING CANCELLED

Washington, Aug. 21.—President Wilson cancelled the usual Tuesday cabinet meeting to devote his attention to the coal situation.

FIERCE BATTLE WAGED AT LENS

Starts at Early Dawn and
Continues Thruout
Day

STRUGGLE INTENSIVE

Canadians Fight Way Forward
With Bombs and Bayonets
to Important Positions

GERMANS LOSE HEAVILY

British Front in France and Belgium, Aug. 21.—By the Associated Press.—The fierce battle which began at dawn today on the outskirts of the city of Lens continued thruout the day at close quarters and late this afternoon there was no diminution in the intensity of the struggle between the attacking Canadians and the Germans.

The Canadians this morning fought their way forward with bombs and bayonets and occupied important enemy defenses northwest and southwest of the heart of the city and since then the Germans have been sending in wave after wave of infantry in desperate counter-attacks.

The Canadians have held strongly and the Germans have suffered very heavy casualties, as they must have expected from the nature of their counter-thrusts, in which no thought is given to the cost in life.

Canadians Rush Germans

The striking feature of the battle lies in the fact that the Germans also had massed troops for a counter-attack at dawn against the newly-acquired Canadian positions in the northwest environs of Lens and had actually started their advance, when they were surprised by encountering the onrushing Canadians in No Man's Land. Both offensives had begun at the same hour, but a heavy mist hung over the ground and the Germans were apparently unaware of the Canadian preparations until the Canadians were upon them with the bayonet.

Brief but bitter fighting occurred in No Man's Land. The German officers tried to rally their men against the Canadians, but the enemy infantry gradually fell back to the trenches they had just left. The Canadians followed and, leaping on the parapets, hurled bombs down among great numbers of troops which had been collected for the attack. The German tried to flee thru the communication trenches, but the Canadians jumped among them with bayonets and bombs, killing many.

Strenuous Fighting

On the southwest the Canadians were equally successful after very heavy fighting in which the British artillery was brought into place. The most strenuous fighting late in the day was proceeding in the center of the line west of Lens, but the whole line was a seething cauldron.

The Canadians have achieved their immediate object by drawing their lines still closer about the heart of the city and their goal unless the German counter-attacks succeed.

The Canadian assault extended from the northwest of the environs of the city to positions in the southwest suburbs and as the Germans were already advancing to attack the new Canadian defenses the fighting quickly assumed the character of one of the most sanguinary conflicts which this battle scarred theater has seen.

Start Fighting At Daybreak

On the northwest the Canadians and Germans clashed in No Man's Land just as the first gray streaks of day were appearing. From the start it was a struggle with hand bombs and bayonet, but the Canadians threw themselves upon the enemy with such fierceness that the Germans were forced to withdraw, battling step by step until the Canadians had penetrated their positions to a depth of several hundred yards and taken up new posts which they are holding against bitter counter-thrusts.

A circular line around which the opposing forces now are fighting is drawn close about the city proper, where the Germans had fortified themselves in concreted cellars and dugouts.

No estimates of casualties or prisoners is yet possible but captured Germans were bringing themselves back of the front at an early hour.

WEATHER INDICATIONS AND TEMPERATURES

Illinois:—Showers Wednesday; Thursday unsettled, probably showers, but much change in temperature.

LINCOLN'S EXHIBIT
MEANING GROWS.

One of the special attractions at the state fair this year will be the Lincoln exhibit prepared by Mrs. Jessie Palmer Weber and exhibited at the Panama-Pacific exposition. Interest in Lincoln's affairs has never ceased since the war began and as the thoughts of the people have turned more and more to the history of this country and the developments of the last fifty years, the greater has Lincoln grown in their thoughts. So the exhibition at the state fair will indeed prove a great attraction and it will mean more this year than it would have meant if displayed at the fair in 1916.

LET US HONOR OUR
NEW SOLDIERS.

Acting in accordance with the suggestion of President Wilson, a mobilization day proclamation has been issued by Gov. Lowden. In this proclamation the governor calls upon the loyal citizens of Illinois to plan for some special show of honor to the men who have been called upon for army service and ordered to mobilize at some designated camp. These men, as the governor points out, are the best blood of the nation. They have been chosen as the most fit for service from a larger number and are going forth to represent their fellows in a war in behalf of all mankind.

No doubt some local preparations will be made for doing honor to the Morgan county men who will leave in the first allotment, and certainly the plans for this patriotic observance should be made soon. The occasion will give opportunity to citizens to thus express their appreciation of the service they know these men will valiantly perform.

HOLLAND'S SLAUGHTER
OF DAIRY HERDS

In line with the address made by Mr. Marple at the chautauqua yesterday it is interesting to note the reported order in Holland for the slaughter of 500,000 milk cows to form a part of the people's food supply. As dairying is the principal industry of Holland and that is really the home of some of the most famous breeds of dairy cattle, it is easy to see how the industry will be crippled there. The most interesting point about the reported slaugh-

ter is the indication it gives that the American embargo against the shipment of food stuffs to neutral countries is having its effect. We do not want to hurt the neutral countries but the purpose of that order was to prevent neutral countries from shipping their own products to Germany and then subsisting on the shipments received from America. But there is thought that when all the neutrals get into straitened circumstances for a food supply they may be able to aid us with some timely influence in bringing to pass world peace.

HOW TO KEEP YOUR FRIENDS.

An editorial in the September Woman's Home Companion says:

"It is almost impossible to be genuinely friendly with a person who insists on being close to you, on knowing all your thoughts, feelings and affairs, and on claiming your time and attention on the excuse of affection alone."

"The bonds of true friendship must be easy and its demands must be for something real and vital. The woman who calls on you perpetually because she has taken a sudden fancy to you is a blind and selfish egotist, in a mild way. Her calls may interrupt your work and bore you intently, but if you are a polite and courteous person you bear with her until she directs her attention elsewhere. She will probably tell the new friend that you are 'very unresponsive.' Some women clutch at every new acquaintance and then complain that they have so few friends. The reason is that friendship is not built on trivialities and whims, but by giving such valuable things as true consideration, real interest, and manifesting a decent reserve as to the other person's confidences and non-confidences."

FEDERAL GOVERNMENT TAKES
NORTH DAKOTA LEAGUE PRIZES

The mission of the North Dakota Farmers' League bids fair to be somewhat interfered with by the expected federal happenings. The Farmers' League came into ascendancy on a platform advocating state, and subsequently national, control of elevators, packing plants, flour mills, cold storage plants and like institutions. The league elected its candidate for governor and the majority in legislature so that there was little chance of inability to put thru its co-operative program, which outside the state was looked upon as a marked socialistic experiment. Conditions in this country are changing rapidly and already there is federal control of the grain crops and flour mills in the hands of one man and with authority to direct the operations of storage and packing plants. In fact, we have made steps toward a centralized government in the past three months which out-distances even those radical North Dakota farmers. Thus a large part of the program of the Farmers' League, at which the other states had been looking askance, is already an actuality in this country of ours.

LOWER COAL PRICES ORDERED.

The Washington dispatches last night brought the welcome news that President Wilson has taken the coal situation in hand and provided relief from the exorbitant prices, which have been charged since last winter by the mine owners. It is understood that the reductions which the president has ordered are based upon investigations made by the federal trade commission, and this being so, the people must take back some of the unkind things that have been said about the commission's previous actions with relation to the coal industry.

Some months ago the commission made an inquiry which resulted in the authorization of prices already being charged by the mine owners. The public made such violent protests that the attention of Washington authorities was attracted and seemingly the commission must have been instructed to investigate further. The protests of individuals, the action of the state council of defense and the forceful attitude taken by Gov. Lowden and other state executives no doubt had part in bringing to pass the result just announced. No matter just how the result was attained, it is beneficial to the people and the prices fixed, while much lower than have prevailed for months past, will still allow the mine owners a handsome profit on their holdings.

THE MODERN ROMANCE
OF BURIED TREASURE

There has never been a time since the days of sea pirates that there have been so many stories of hidden treasure. Almost every day one reads of an expedition to unearth

some treasure said to have been buried years ago or to reclaim some materials that have been advanced so much in price by war times that additional expenses for recovery can be paid. A man in California claims to have the facts about a huge box of treasure worth \$1,000,000 in the very heart of Los Angeles. He has a force of men at work and is hoping to locate this hidden gold. Recently a man started from an eastern port for a particular spot in Mexico where he expected to unearth a box of treasure said to have been buried there by pirates years ago.

But these stories of treasure, more or less nebulous, do not have the real interest that is true of various expeditions for the recovery of metals and ore lost in wrecks in years gone by. Actual recovery work of this kind is being done and a chunk of copper worth \$3,500 was taken recently from Lake Michigan where a ship and its cargo went down forty years ago. At the time the ship was lost copper was worth 8 to 12c a pound and now it is worth 35 to 50c.

In searching for treasure of this kind the romantic feature disappears and engineering feats and business sagacity come in its place. Machinery which was practically unknown even ten years ago is now available for this recovery work and there have been some developments thru inventive genius even in the past few months. Inventions and chemical developments have not been confined to war munitions in these past months, for there has been development in many lines more or less distantly related to war industries. The recovery of copper and other ore from the bottom of Lake Michigan or some other source now is good work for it increases the supply at a time when increase is greatly needed and so is adding to the sum total of wealth and that without diminishing resources.

AROUND THE CAMPFIRE.

Around the camp-fire's ruddy glow
When stars of night come out
We meet to spend an hour or so
With song and jest and shout.
For in our Yellowstone National Park,

The visitors all are free;
And now our guide says "In the dark
is greater liberty.
But whether that be true or not,
We know that one and all
Are happy in this camping spot
Where sparks from pine logs fall.
So all the eve with laugh and cheer,
We while the hours away,
Right glad that we have gathered here,
Ere dawns the parting day.

We watch Old Faithful spout and steam,
And wonder if we wake,
Or if this were a fairy dream,
And all the tales a fake.
But whether it be false or true,
Our eyes we will not close,
To all the beauties of the view,
That lie beneath our nose.
We do believe—we count it joy,
Those wondrous tales we heard,
We know our guide's a truthful boy
That golden is his word.
We like the scarlet scarf he wears,
And—it attracts the girls,
We know he'll keep us from the bears,
And from the Geyser's whirls.

Now we'll remember long I know
The welcome at this camp.
Around the pine logs ruddy glow
When fell the evening's damp.
The boys and girls who served us well,
The friends we made so dear,
We prize you more than tongue can tell.
And hope to meet you here,
Some other time, some other night,
While years are passing by.
Around the camp-fires glowing light
Where now we say "Goodbye."
—S. A. Hughes.
Read at Old Faithful (Geyser)
Camp, around the pine log fire.

Rippling Rhymes
By WALT MASON

Vanished Books.

I lend my friend a silver buck, a bone that's fair to see, and when he's had a change of luck, he brings it back to me. I lend my friend my hunting pup, on rabbit trails to roam, and when he finds his time is up, he brings my bow-wow home. I lend a man my eight-day clock, to cheer his lonely shack; thru hail and deluge he will walk, to bring my timepiece back. But when I lend my neighbor books, I say to them, "Good by! These volumes nevermore, gadzooks, will greet my loving eye! The cherished works of Bertha Clay, Nick Carter's precious tome, no more will gladden night and day, in this my humble home." I hold it strange that men so square they would not swipe a dime, will pinch my volumes, rich and rare, my books of prose and rhyme. I know a man who'd walk from dawn to darkness to return a nickel he'd in error drawn, a cent he didn't earn. He always walks in virtue's me, my books of prose and rhyme. I yet he does not bring me back my volumes by Old Sleuth.

THIS DATE IN HISTORY

August 22, 1839—Benjamin Lundy, the famous abolition propagandist, died at Lowell, Illinois, and was buried in Putnam County, Illinois.

FRANKLIN PICNIC THURSDAY

The Waverly band has been secured to furnish music Thursday, the day of the M. E. church picnic at Franklin. Carl E. Robinson, the state's attorney, will be speaker. Arrangements have been completed for serving in the basement of the church in case the weather will not permit the use of the central park.

TELEPHONE OPERATOR
SAVED LIFE OF TWO MEN

Heroic Incident of the Tallula Fire Comes to Light—Loss From the Flames was More than \$20,000.

It was thru the cool headed work of Miss Leona Hudson, night operator at the Tallula Telephone Exchange, that two men who were sleeping in one of the burning buildings were awakened and the alarm was given.

Miss Hudson was resting near the switch board in the telephone exchange room, which occupies a part of the second floor of the building.

She had fallen asleep for a time and awakened to find the room so filled with smoke that she had barely time to rush into the hall without being overcome. She rushed to the other side of the building where there was a flat-room occupied by William Plumley, keeper of the restaurant in the first floor of one building and Benjamin Smith, a barber. These men had a narrow escape also and the three had hardly more than left the building when a wall from a structure adjoining fell, covering the floor with burning debris. One of the men was so dazed by the heat and smoke that he did not recover for more than half an hour. A man whose residence was near the fire bell was aroused, the town alarm was given and soon a large number of Tallula citizens were doing their best to keep the flames under control.

The Bergen building was a total loss. Epperly's meat market and grocery was badly damaged and Hussman's Hardware store, over which the telephone exchange was located, was partially burned and the stock virtually ruined.

The fire loss, partially covered by insurance, has been given a conservative estimate of \$20,000. Had it not been for rains which fell at intervals thruout the morning the entire business section might have been consumed.

The Waverly picnic which was to be today is postponed until Sept. 3, Labor Day.

O. H. CULLY HEARS OF
BROTHER-IN-LAW'S DEATH

Franklin M. Green, who Met Death in LaCrosse, Wash., was Born in This City and Had Varied Career.

Franklin M. Green, a former resident here, passed away at his home in LaCrosse, Wash., recently, according to word received by O. H. Cully, brother-in-law of Mr. Green.

Mr. Green, who to many acquaintances and friends was "Uncle Bobby," was 86 years of age when death took him. The funeral was held at a Methodist church in LaCrosse in charge of the pastor, Rev. Mr. Cressy. Burial was made in a cemetery nearby.

Mr. Green was born in this county Oct. 25, 1831, and in 1850 he crossed the plains and settled in the town of Jacksonville, Ore. Says a paper published in LaCrosse: "The following year he joined with the rush to the gold fields in California and his life during the early days were filled with adventure and hazard. He was a packer for the government and fought in the Rogue River Indian war. Years later he went to Montana and engaged in business at Helena. He afterward took up stock raising in Franklin county, Wash., moving to this section in 1907."

"The deceased had been in almost helpless condition for the last few years, and his rugged constitution developed by his hardy career in his earlier life kept the spark of life bright long after he had lost control of his body."

Mr. Green was married to Lula Luan at Riparian in 1889, his wife dying two years later and in 1896 he married Mrs. Elizabeth Carter at Colfax, who still survives him. He also leaves an adopted daughter and eight step children.

COAL PRICES WILL
BE LOWER HERE.

The scale of prices fixed by President Wilson that coal operators may charge will mean local prices of at least \$1 less than the prices now prevailing. The prices fixed, while still allowing the mine owners a good margin of profit, will undoubtedly come to them as a big surprise. Ever since Gov. Lowden threatened to have the state take over the mines unless prices were reduced and appointed Supreme Justice Carter as coal controller, the mine operators have been pleading for federal control. They evidently thought that the federal trade commission which has handled them gently in the past, would continue to do so and that prices would not have to be materially reduced. The reductions which the government has ordered will be helpful to the people now and will also make it certain that exorbitant charges cannot be made during the winter season.

STRIKE DECLARED OFF.

Washington, Aug. 21.—As the result of conferences concluded here today in which representatives of shipbuilders, the shipping board and the American Federation of Labor participated, a strike of more than 1,000 shipbuilders in the Gray's Harbor district of Washington was declared off.

PRODUCTION COSTS ESTIMATED

Washington, Aug. 21.—Federal trade estimates on copper and steel production costs go to President Wilson today for use in fixing prices for the government's war needs. Figures called for by the president on the costs of other materials soon will be completed.

W. W. Marple, who made an address at the Chautauqua Tuesday on "The Trail of the Lonesome Pine," is prominently identified with the dairy interests of the state. His coming was arranged for by L. T. Potter.

MISS SELMA LANE
WEDS IN LOS ANGELES

Runaway Marriage Unites Well Known Young Woman of Salt Lake City With F. J. Myers of New York.

J. W. Lane of this city has received from his brother at Salt Lake City Utah, a clipping from a Los Angeles paper of recent date which says:

Miss Selma Lane ran away from her home in Salt Lake City Friday. She left a note for her parents, motored at high speed to the station, and caught the Los Angeles limited. Frank J. Myers of Los Angeles and New York city met her at the station yesterday afternoon. He had the license ready and a speedy machine carried them to the chambers of Justice Hugh L. Crawford who promptly married them. Thus was Salt Lake City robbed of the delights of a big church wedding.

The bride is the daughter of Mr. and Mrs. Edward B. Lane, wealthy and prominent socially in the Utah metropolis. Mr. Myers, though claiming New York as his home, represents the Pullman auto here. The young people had been engaged for nearly four years. They had planned a church wedding in June; then the selective draft came along to interfere with the plans of Cupid, and they decided to defer the wedding till they knew whether Mr. Myers would be taken to France by Uncle Sam or not. Friday the Lanes were seated at lunch when a telegram was received from Mr. Myers stating that he was not to be drafted on this call and that nothing stood in the way of their marriage.

Immediately the family began to plan a church wedding, the brilliant wedding of the sort the girl had dreamed about, the kind of wedding Salt Lake City expected.

Miss Lane said little; she was doing a lot of thinking. Luncheon finished, she managed to get away from home unobserved and started on her unannounced journey to Los Angeles. She preferred the romance of running away and an immediate marriage to further delay and the church wedding.

A telegram to the parents informed them of the wedding. Mr. and Mrs. Myers will reside in Los Angeles.

The young lady attended the Woman's college in this city a year not long since.

TO TAKE FOOD CENSUS
IN PHILIPPINES

In Order to Determine Grounds for Fears of Possible Food Shortage—Intensive Food Cultivation Campaign to be Inaugurated.

Manila, Aug.— (Correspondence)—A detailed census of the food supplies of the Philippine Islands is to be taken at once to determine what grounds there may be for fears of a possible food shortage. The food board recently appointed by Governor General Harrison has collected statistics of all kinds of food staples in the islands, and this report is now in the hands of the chief executive.

An effort is to be made to arouse the entire Filipino people to the necessity for an intensive food cultivation campaign. The government, particularly thru the Bureau of Agriculture, is to co-operate in every possible way, furnishing seeds, technical advice and government land wherever it is available. The city of Manila has turned over to the Woman's Club of Manila areas in various parks and city lands, amounting to a quarter of a million square meters to be used for small vegetable gardens to be cultivated by pupils of the public schools and women and children of the poorer Filipino families. The city itself has planned in Harrison Park, the new public playground opened in honor of the present governor general, guinea grass which is to be used as fodder for the hundreds of horses employed in city work.

The Bureau of Education has issued an urgent appeal to every school superintendent and every school principal to make an effort this year to double the production in the school gardens in the archipelago. The sailors from the commandeered German vessels who are now interned in Baguio, the mountain resort of the Philippines, have been given land in which they will raise vegetables, not alone for their own maintenance but for sale as well. Commanders of different army posts scattered thruout the Philippines are making an examination of the soil and ground in their reservations with a view to utilizing every inch for the production of food.

Social Events

Mollenbrack-Phalen

Wedding Today

The wedding of Miss Rose Phalen, daughter of Mr. and Mrs. W. O. Phalen, and Albert Mollenbrack, son of Mr. and Mrs. F. W. Mollenbrack, will take place this morning. The ceremony will be solemnized at the Church of Our Savior and a short time afterward a wedding breakfast will be served at the home of the bride on South Fayette street.

WITH THE SICK

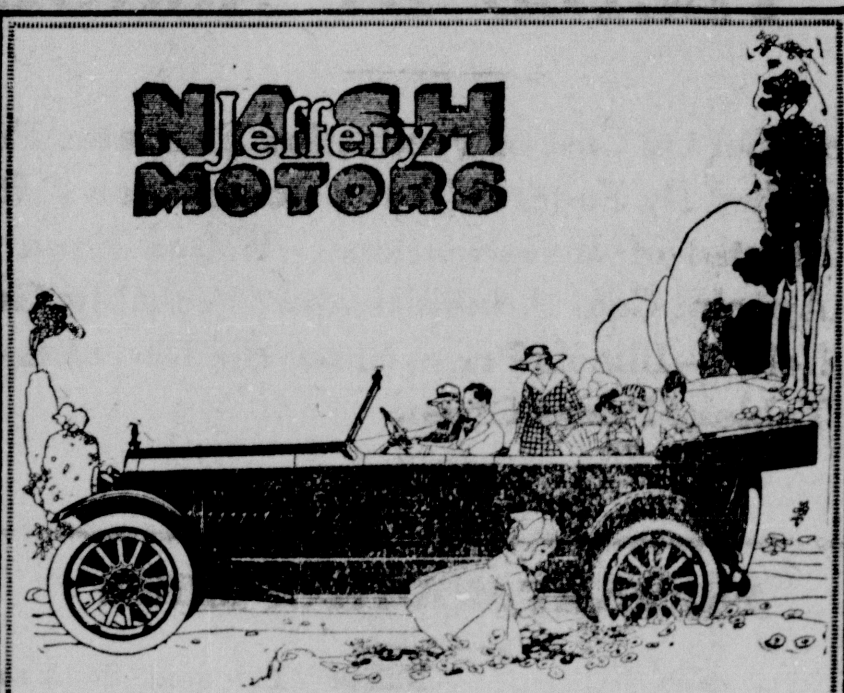

Mrs. Charles H. Story, who is at Passavant Hospital with typhoid fever is getting along as well as could be hoped for at this time. She is under the care of Dr. David W. Reid and is being nursed by Miss Karloski of Springfield. Her baby, now three and one-half months old, is with her at the hospital.

Eleanor Luttrell, the daughter of Mr. and Mrs. W. N. Luttrell, is ill of typhoid fever at her home in Franklin.

John Hayes, who lives three miles southwest of Murrayville, has left at the Journal office a stalk of "sugar corn" which is 12 feet high. Mr. Hayes has two acres of this corn which gives promise of an excellent yield.

Care of Your Wants

What We Found in This
Jeffery Six You Will Find

From the first the Jeffery Six impressed us as exceptional.

We found a rightly designed, splendidly built, 53 horsepower motor, smooth and flexible.

We found that this Jeffery Six starts quickly—operates easily—holds the road well—carries its passengers comfortably. We found vibration practically eliminated by the extra heavy, inherently balanced crankshaft. Every part of the car was designed right and built right. Only highest grade materials went into its construction.

The handsome, hammock slung body with divided front seats will please you.

This car is 93 per cent built in Nash shops. See it at your dealer's. Price \$1465.

Mr. and Mrs. F. G. Walsh of Prentice, spent Sunday with relatives here.

John Nix, Mr. and Mrs. Newt Nix and daughter spent Sunday with friends at Easton, Ill.

Miss Anna Lee Schaffer of Sinclair, who has been a patient at Ashland hospital has returned to her home at Sinclair.

Mr. and Mrs. H. M. Hole of Cincinnati, O., are visiting Mrs. Hole's aunt, Mrs. F. Nielsen of South Main street.

THE GRIERSON GUARDS.

The muster roll of the Grierson Guards of Sept. 29, 1863, which the Henderson - Nichols combination turned up in Tuesday's Journal, will bear some editing or additions.

The McConnells.

First of all, it may be well to explain to younger people why Geo. M. McConnell is referred to as major. It is because, a little later than this Grierson company, Mr. McConnell was appointed a Paymaster in the U. S. army by President Lincoln, and the office carried the rank of major, in which capacity he served to the end of the War. As has already been noted Major McConnell had been doing his part in training the others in the company that went to Quincy in 1861, and now again in this "Grierson Guards" company, which was then known as a Home Guard. There was another, composed of older men, probably commanded by Capt. Thomas W. Smith, formerly of the 10th Ill.

At the beginning of the War, Gen. Murray McConnell, father of the Major, had gone with Stephen A. Douglas, his protege and Democratic party leader into active support of President Lincoln and the Union.

Gen. McConnell's youngest son, Edward, had gone out in the first "3 months' service", then had raised a company for the 34th Ill. Vols., of which he was captain, when Mr. Lincoln appointed him a Lieutenant in the Regular Army. He served in this to the end of the War, becoming Captain and Brevet-Major.

Col. John L. McConnell had been a captain in the Mexican War, and died before this, during the Civil War, his health having been bad for years.

The Grierson Guards.

Of this company, first—Lieutenant "F. Longley" should be J. Floyd Longley. He had been a Lieutenant in the first "3 months" and a captain in "three years" enlistment, and was afterwards major of the 133rd Ill. Vols. (100 days men) in 1864.

"Wm. Harrison," as referred to by me last week, was Wm. H. Harrison, a Lieutenant or captain in the 68th Vols., and first—captain of the "Morgan Cadets", Co. F. Fifth Ill. Wm. T. Reid, a cousin of the Capps boys, was in the 68th Ill., and became a distinguished educator; now resident in California.

Wilson S. Coulter was in the service and suffered in Andersonville.

John C. McBride was also in the service.

James S. Hurst was in the 68th Ill. and is still here. Was City Marshal.

Stephen B. Gray was in the service later.

Ellis M. Allen was City Marshal afterwards.

George R. Bibb was in the early service, and captain in the 145th Ill. Vols.

Robt. Buckthorpe was the father of those happy twins, "Tom and Bob."

George W. Graves was in the Service.

Wm. Hackman is still here.

Thos. B. Humphrey was well known here.

John W. King was captain in the 10th Ill. Vols., and 68th., and colonel in the Governor's Staff.

John R. Loar was afterwards mayor.

John Rottger has not been gone so very long.

Henry Rice was a brother of the present William Rice; cousin of the Smiths and James S. Hurst.

Junius P. Strong was a brother of John D. Strong.

Edward S. Sanford "perhaps" means E. M. Sanford.

Henry B. Shirley in 68th., became a doctor at White Hall.

Charles H. Ten Eyck was U. S. Express agent for years.

James P. Willard became a physician, was mayor and now lives in Denver, Colo.

Fred H. Hocking was in the service.

George W. Fox was in the "100 day service", and now is in Indianapolis.

The two Home Guard companies were organized at the time when the "Knights of the Golden Circle" were supposed to be a danger to the Union men.

Like many other good Union men of those days, even though not in the service, these Home Guards did a good part.

O. H. SPAULDING INJURED.

O. H. Spaulding of the city street department was painfully bruised by the overturning of a derrick at the north end pumping station about 5 o'clock Tuesday afternoon.

The accident occurred while Spaulding was engaged in moving the derrick to a new location for the making of tests which are in progress at the north end station. In some way the derrick which is mounted on wheels started to turn over. Mr. Spaulding was driving the team and saw that it would fall on the horses. He turned the horses around so that they escaped the falling derrick but was unable to get out of the way himself.

The derrick struck him knocking him down and inflicting painful injuries to his back, neck and left arm. He was removed to his home, 727 South Church street and attended by Dr. Bowe. No bones were broken but his injuries probably will confine him to the house for some time.

CUT FINGER BADLY.

Mrs. Harry Smith of the Springfield road had the misfortune yesterday to cut off the end of her left thumb with a hatchet. Mrs. Smith was splitting a small piece of board at the time and a misstroke resulted in the painful happening. Dr. D. W. Reid gave her the necessary attention.

C. W. Jacobs of the Jeffery Motor Co., left last night for Chicago and from there will go to Kenosha, Wis., to drive home a specially painted Jeffery touring car.

Frank Nickel of Concord was attending to affairs in the city yesterday.

You won't fear Fire or Burglars if your Valuables are in our Safety Deposit Vaults.

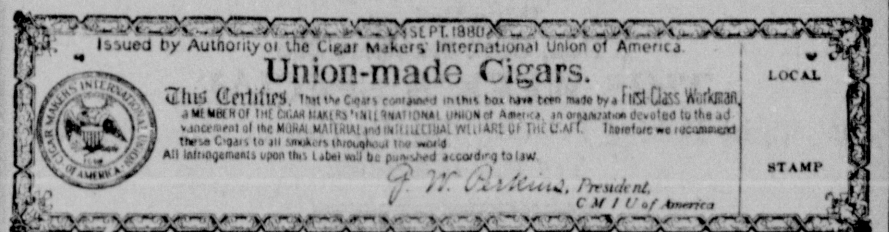

It is not only careless to keep valuables in your house, but it subjects you and your family to GRAVE DANGER. Not only may you lose them by fire, but burglars might break in and steal them. Burglars always "spot" the house where valuables are kept and they will stop at nothing—not even murder—to steal them.

Put your valuables in our SAFETY DEPOSIT VAULTS where they will be SAFE. Costs only a nominal sum.

TAX BILL CERTAIN

Extent Still in Doubt—LaFollette and Weeks Make Only Addresses of Day.

Washington, Aug. 21.—Increase in the total levy of the \$2,000,000,000 war tax bill was regarded certain tonight following another day of senate debate and informal conferences among leaders. The extent of the increase was still in doubt, with antagonism growing between factions advocating and opposing a drastic advance in rates on war profits and incomes.

Senators LaFollette and Weeks made the only addresses today. The former spoke for nearly three hours in favor of radically higher levies on war profits and incomes of the wealthy, while the latter defended the bill as drafted by the finance committee, urging that business should not be injured by too heavy initial tax burdens.

After a speech tomorrow by Senator Borah, in favor of higher taxation and fewer bonds, consideration of the income tax section is expected to begin.

Leaders of the finance committee now are considering presentation of amendments proposing higher surtaxes on big incomes. Those advocating greater levies declare at least thirty senators favor such action.

Senator Gerry, a finance committee member and reputed millionaire, today introduced an amendment, reported to have been approved by committee leaders, to increase by about 33 per cent surtaxes on incomes of \$500,000 and more. His amendment would raise \$40,225,000 more revenue.

MINE GUTTED BY FIRE.

Phoenix, Ariz., Aug. 21.—Fire believed to have been caused by friction resulting from the settling of brace timbers, gutted the Coronado mine of the Arizona Copper Company at Clifton early today. The damage is estimated to have been \$125,000.

WILL ATTEMPT TO
SETTLE STRIKE.

Washington, Aug. 21.—Secretary Wilson will go to Birmingham, Ala., tonight to attempt a settlement of the threatened nation-wide strike of coal miners. Some 25,000 men are involved. The miners were to have struck yesterday but postponed their action at the secretary's request.

FEDERAL LIVESTOCK
COMMITTEE CREATED

WASHINGTON, Aug. 21.—Creation of a federal livestock industry committee of more than 100 volunteer members to undertake to increase the nation's meat production was announced today.

The committee will further a plan, announced last night, for the transfer of thousands of head of cattle, sheep and hogs from the big western producing districts to small farms in central and southern states where a great amount of food goes to waste.

Under the arrangement planned, small farmers may place orders for stock with county agents of the agriculture department. Livestock exchanges will assist in the movement without charge to the purchasers.

ENTIRE INCOME
FOR WAR RELIEF

CHICAGO, Aug. 21.—Arthur Shattuck, concert pianist, who inherited a large estate upon the death of his father, has turned the netire income from the estate over to the war relief for the duration of conflict, it was learned today.

A Chicago bank, was appointed trustee to carry out the plan. At the bank it was said that the income amounts to more than \$50,000 a year.

For three years Mr. Shattuck's Paris residence has been used by war victims, and when the United States joined the allies he turned his yacht over to the government.

Thus the young millionaire has only his own efforts to depend on for a living, which he expects to gain by giving concerts.

FOOD PRODUCERS
TO HOLD CONFERENCE

KANSAS CITY, Mo., Aug. 21.—More than 100 representatives of the state board of agriculture, the state colleges of agriculture and the state councils of defense of Minnesota, Iowa, Missouri, Arkansas, Texas, Oklahoma, Nebraska, Kansas, South Dakota, Wyoming, Colorado, New Mexico and Arizona are expected here tomorrow morning for the opening session of a middle-western food production conference under the direction of the department of agriculture. The conference will last two days. Plans for an increased acreage of winter wheat and rye will occupy most of the sessions.

WAR NEWS SUMMARIZED

Hard smashes at the German lines in France again have been productive of important gains for the entente allies. North of Verdun the French have captured additional points of vantage while the Canadians have fought their way forward nearer to the heart of the town of Lens, taking 2,000 yards of positions.

All the counter-attacks by the German crown prince's forces against General Petain's men on the newly captured ground in the Verdun sector have been ill-starred; those of Crown Prince Rupprecht against the doughty Canadians at last accounts had brought nothing more than an augmentation of the already terrible casualties his troops have suffered in their attempts to save the important coal center from capture.

Under a canopy of mist the Canadians and Germans met at daylight in the open of No Man's Land north-west of Lens, neither expecting the other. Springing at their surprised foe with their usual alertness, the Canadians forced them to scurry for a haven of safety inside their trenches. Here, however, the Germans apparently were no more secure than in the open, for again with the bayonet and with bombs, the Canadians did great execution.

West of Lens, aided by a heavy artillery, the Canadians advanced pushing the Germans further into the environs of the town. To both the captured positions the Canadian are holding tenaciously, already having put down with heavy losses three strong counter-attacks.

North of Verdun, on both sides of the Meuse, the French troops have kept up their vigorous offensive started Monday and been rewarded by the capture of additional important positions. Counter-attacks by the Germans all along the new front have been repulsed by the French.

In addition to more than 500 prisoners taken by the French in Monday's advance, additional captures resulted from the attacks of Tuesday.

The German war office, possibly with the idea of heartening the people at home, says counter-attacks by the Germans have driven out the ch from almost all the positions they captured on the Verdun front. It adds that the German troops and their leaders anticipate a favorable conclusion of the Verdun battle.

In the Austro-Italian theater the terrific drive of the Italians is causing the Austrian line to crack at numerous points. The Austrians are resisting vigorously. Altho the battle is proceeding without interruption, little is available in the official communication to delineate geographically the advances. The Italians thus far have made, up to Monday night more than 10,000 prisoners have been taken, not counting 243 officers.

The Russians in Galicia and Bukovina are apparently holding their own against the Austrians and Germans, but in Roumania the Russians and Roumanians have been compelled to cede further ground.

NOTE SIGNING
MYSTERY CLEARED

CHICAGO, Aug. 21.—The mystery over the signing of a note from the federal trade commission to Dr. Honnold, an official of the Illinois Coal Operators Association, is cleared up in a statement from the commission.

The note, sent by telegraph, purported to have been signed by L. L. Bracken as secretary of the commission. It suggested that Illinois "hold off" in fixing coal prices. It developed that Mr. Bracken did not send the telegram. His name was signed by William B. Colver, a member of the commission, as a matter of form.

THIRTY-FOUR HAVE
NOT BEEN ARRESTED

EAST ST. LOUIS, Ill., Aug. 21.—Thirty four of the 105 persons indicted in connection with the recent race riots here have not been arrested. Six of these are in the third Illinois artillery at Springfield and can be arrested any time.

Deputy sheriffs do not think many of the remaining 28 will be found, as their identification is incomplete. Some of the caplases give no first name for the person indicted, and the deputies are uncertain whether the person wanted is a man or a woman.

SPANISH CABINET
TAKES ACTION

MADRID, Aug. 21.—The cabinet yesterday decided to send home all men recently called to the colors owing to disturbances.

The cabinet approved a credit of 70,000,000 pesetas for the re-organization of the army and manufacture of material, especially anti-aircraft guns and artillery.

The Bank of Spain placed at the disposal of the government 100,000 pesetas for the orphans of police killed maintaining order recently.

MORE AERIAL RAIDS.

London, Aug. 21.—Another of the series of aerial raids over Belgium was carried out Sunday night. The following report was made today by the admiralty:

"At about midnight August 19-20 the royal naval air service dropped many tons of bombs on the Middlekerke dump and the Burgoise works. All machines returned safely."

CONVICTS ESCAPE.

Houston, Texas, Aug. 21.—Twenty five white convicts escaped from the state farm near Sugarland this morning after overpowering guards and taking their guns and are now reported to be committing depredations in Fort Bend and Harris counties.

Guards from the state farm are in pursuit of the convicts.

WILL NOT REPLY TO
POPE'S NOTE AT PRESENT

Chancellor Michaelis Informs Committee at Reichstag Germany Will Consult Her Allies First.

Berlin, Aug. 21.—via London—Chancellor Michaelis informed the main committee of the reichstag this afternoon that Germany would not reply to the appeal of the papal peace note until she had consulted her allies.

Dr. Michaelis added that, in view of the fact that Germany had previously repeatedly and positively indicated her readiness to enter peace negotiations, the vatican's appeal, of course, is looked on with sympathetic approval. Germany, however, could not again offer peace in face of the summary rejection of previous proposals and continued declarations by the entente that no peace is possible until the central powers are defeated and crushed.

The chancellor informed the committee that no steps would be undertaken toward peace without fully consulting the reichstag. He then declared that the military situation on all fronts was exceptionally auspicious and read a message received from great headquarters in which the U. boat campaign was given liberal credit for its effect in successfully warding off the allies' offensive in Flanders.

Dr. Richard von Kuehlmann, the new foreign secretary, and other newly appointed government heads were presented to the committee which took no action.

Constantin Fehrenbach, one of the centrist party leaders, was elected chairman of the main committee to succeed Dr. Peter Spahn. Dr. Michaelis conferred confidentially with the reichstag leaders during the day while party factions were also in session in the morning.

FUNERALS

Ragsdale

Funeral services for Homer E. Ragsdale were held Tuesday afternoon at 2:30 o'clock at Centenary M. E. Church, in charge of the pastor, the Rev. E. L. Fletcher. Appropriate songs were rendered by a trio, Mr. and Mrs. T. H. Rapp and Mrs. Albert Baldwin, with Miss Myrtle Larimore at the piano. The floral gifts were cared for by Mrs. Frank Craven and Mrs. Naomi Martis. Mr. Ragsdale was for a number of years a valued member of the Jeffries Band. Members of that organization acted as an escort, going in a body from the home on East Morgan street to the church and playing funeral music as the journey toward the cemetery began.

Burial was made in Diamond Grove cemetery. The bearers were Fred Goodrick, Wilbur Jeffries, George Hearle, Earl White, George Day and Terrance Brennan, members of the musical organization to which the deceased belonged.

F. E. Decker and family were here from Chicago to attend the services. Mr. Decker could not remain for a long visit but his wife, who is a sister of Mr. Ragsdale, will be for several days at the home of her mother on East Morgan street.

Davis

Funeral services for Mrs. M. H. Davis were held recently at Mt. Sterling and were largely attended. Mrs. Davis passed away at a local hospital and the body was sent to her home city for burial. Friends who had been schoolmates of the deceased twenty years ago, cared for the flowers. Mrs. Adeline DeSilva and Mrs. Hattie Imhoff were present from Jacksonville to attend, as were Roy and Wilhelmina DeSilva and Frank and Edith Imhoff. Mr. Davis is expected from Mt. Sterling today, having already planned to remain at the DeSilva home.

FAIR AND COUNTRY

The Overland automobile will help you see the state fair and the country—a first class car for all pocket books.

MATRIMONIAL

DeLeuw-Guthrie.

First Lieut. Charles E. DeLeuw of Chicago and Miss Martha Guthrie of Riverside, Ill., were married Tuesday evening, at Riverside, according to word received in the city by Mr. and Mrs. V. A. Bancroft, whose son, McGregor Bancroft, was Lieut. DeLeuw's best man. The wedding was to have been a quiet one according to the word to Mr. and Mrs. Bancroft.

Lieut. DeLeuw was born and reared in Jacksonville and after attending the schools of the city and Illinois college went to Champaign, where he finished a course in engineering in the University of Illinois. His mother, Mrs. Oscar DeLeuw, resides with a daughter in left this city about eight years ago, left this city about eight years ago, has recently been practicing his profession in Chicago. He is now first lieutenant of the engineering corps and is stationed at Ft. Leavenworth, Kan.

NO CONTRACTS AFTER SEPT. 1.

Chicago, Aug. 21.—Wheat deliveries in future contracts will not be made after September 1, it was announced today, following a meeting of the Board of Directors of the Chicago Board of Trade.

446 OFFICIALLY PASSED.

Burlington, Ia., Aug. 21.—Of 1,175 men examined by the local board of Des Moines county for the new national army, 446 have been officially passed. Included in this number are 97 who claimed exemption but had their claims disallowed.

GERMANS VIOLATE
ESPIONAGE ACT

SIOUX FALLS, S. D., Aug. 21.—Fifteen Germans were arrested today at Tripp, Hutchinson county, South Dakota, by federal officers charged with violation of the espionage act, according to advice received here late today. The men were taken to Yankton, South Dakota for a preliminary hearing.

Officials refused to divulge the exact nature of the complaint filed against the men. However, it is understood they signed a petition to the county treasurer protesting against the draft.

On August 14, fifteen other Germans, socialists, were arrested in Hutchinson county by federal officers on a similar charge. It was then intimated by officials that an organized propaganda was being carried on in German settlements.

HEADS CONFER ON
BUILDING PROGRAM

WASHINGTON, Aug. 21.—Estimates included in the request the shipping board will make for a billion dollar appropriation to complete its eighteen-month building program were gone over today at a conference between Chairman Hurley of the board and Secretary McRood. The request probably will go to congress this week.

The board needs \$500,000,000 for the construction of fabricated steel ships, \$250,000,000 to carry out commandeering of vessels now building in private yards and another \$250,000,000 for contracts for steel and wooden ships to be let soon. The commandeering program will cost in all about \$500,000,000, but \$250,000,000 of the original \$750,000,000 appropriation will be used for that purpose.

Contracts for building fabricated ships will be let within a few days.

MUST TELL WHO
LOANED HIM MONEY

AUSTIN, Tex., Aug. 21.—The first line-up of the house committee of the whole investigating Speaker F. O. Fuller's charges against Governor James S. Ferguson came late today, when the committee, by a vote of seventy to fifty six, ruled that the governor must tell who loaned him \$156,000 to pay bank debts. The charges, which seek the Governor's impeachment, include one that Mr. Ferguson had borrowed money from a certain bank of which the governor was a stockholder, in violation of the law. The governor has declined to give any names, saying he had promised not to drag names of his friends into his affairs. He had not indicated tonight whether or not he would continue to retain silence regarding his creditors.

COUNCIL OF DEFENSE
TO MAP OUT PLANS

CHICAGO, Aug. 21.—Two hundred of the best known among men of affairs in Illinois will meet here tomorrow in the council of defense headquarters to map out a plan of patriotic instruction to be carried on thruout the state. The meeting is in response to a call from the Illinois council of defense.

The cardinal points of the campaign to be launched in each school district in Illinois are to inspire love of country; to help citizens to get a right understanding of the necessities, aims and ideals of America in the war; to unite all citizens in a single purpose for the duration of the war—the triumph of the American cause.

BELGIAN MISSION
VISITS NEW YORK

NEW YORK, Aug. 21.—What possibly was the most popular of receptions to the five foreign nations which have visited New York, judged by the throngs on the streets and their enthusiastic greeting, was that given to the Belgian war commission today.

Accompanied by Mayor Mitchell's committee they passed thru the dense lines of cheering spectators to City Hall where they were welcomed by the mayor.

Leaving City Hall the commission passed thru a lane of cheering humanity to Washington Square where Baron Moncheur was presented with two flags—the Stars and Stripes and the flag of the City of New York.

RUSSIAN AMBASSADOR
HONORS VETERANS

BOSTON, Aug. 21.—Representatives of the new Russian republic clasped hands tonight with the preservers of the American republic in Faneuil Hall, the cradle of American liberty, when Boris A. Bakmeteff, Russian ambassador, spoke at the national camp fire of the Grand Army of the Republic. The ambassador praised the showing which the veterans made in their march, 8,000 strong, thru the streets with spirits as martial, though with steps not so firm as half a century ago.

Mr. Bakmeteff said: "You risked your lives and your all for a great ideal, the noble cause of democracy and free government. Today the work you did, the trail you blazed, has been an inspiration to the downtrodden and oppressed people of Russia."

DEPENDANT WIFE
GROUNDS FOR DISCHARGE.

New York, Aug. 21.—The draft registrant whose wife and family depend solely on his labor for their support, has grounds for discharge if he appeals to the district appeals board, according to a statement today by Charles E. Hughes, chairman of the New York district board. Mr. Hughes did not concur in the view that the wife should go to work to support herself and children.

KILLED BY THRESHER.

Aurora, Ill., Aug. 21.—Oscar Olson, 22, a farm hand employed at Mooseheart, Ill., the home of the Loyal Order of Moose Industrial School, fell into a threshing machine and was killed yesterday while pitching oats into the machine.

VARIED PROGRAM AT THE CHAUTAUQUA

RAINY WEATHER DID NOT INTERFERE WITH ATTENDANCE FRIDAY.

Boston Sextette Proves to be Great Musical Organization—Gov. Frank Hanly Gave Address on War Conditions and the Liquor Traffic—Bairman's Story of Milk and Butter Industry Very Interesting.

Tuesday was a successful day at the Jacksonville chautauqua, even tho the weather was not propitious. There was a large attendance at all the exercises. At the morning session Prof. Gilbert conducted a class in nature study and Miss Newburn gave a lecture. In the afternoon a splendid concert program was given by the Boston Symphony sextette. Then followed a lecture on "The Trail of the Lonesome Cow" by W. W. Marple and another lecture by Miss Newburn with "Organized Recreations" as the theme. At night the symphony sextette appeared again preceding Gov. Frank J. Hanly, whose address was based upon "Our Climacteric Opportunity." Later Miss Harriet Vittum made a brief address relative to the duties of women in connection with the

war. Altogether it was a day of great interest.

Morning Session.
People were glad and sorry both yesterday morning when it rained. Glad for the sake of the growing corn crop and the grass and sorry for the chautauqua but the rain by no means spoiled the chautauqua day. A goodly number gathered under the big tent and heard a splendid lecture by Prof. Gilbert on diving birds. He told about the Hell Diver which could apparently stay under water so long while in fact it was keeping the tip of its bill above water and thus avoiding danger. Its legs are away back on its body and on land it must stand erect. It cannot start to fly from land but must seek the water in order to soar aloft. It is not good to eat and its plumage is somewhat in demand and might as well be used as not. The loon is somewhat akin, and has a strange, weird voice which sounds like one insane which gives rise to the expression, "crazy as a loon." The pelican, cormorant with its great nest, stormy Petrel, a small bird which half flies and half walks the waves; the killdeer with its large eggs, the sand piper and other birds were described.

Bird Facts.
The speaker then digressed to say that both laws and public sentiment had combined to cause a great increase in the number of birds and he told enthusiastically of the large number of mocking birds in his southern part of the state; making music the year round most delightfully. A wonderful bird is the American Golden Plover which goes north of the Arctic circle to nest and rear its young; then flies with them, as soon as they are able as far south as Nova Scotia where it stops to feed and recuperate; then starts on another long journey over the sea to the east coast of South America where it again stops to feed and recuperate and then keeps on till it gets to Patagonia and when the time for return comes, it goes back to the far north by a more westerly route. In its migrations it travels more than 18,000 miles.

Practical Talk on Meals.
Miss Newburn gave an excellent talk on preparing meals. Meat is the most costly food we eat. Cheap cuts could be far more utilized if people had better knowledge of proper cooking. House wives can do much to induce merchants to carry a desirable line of articles by calling for and buying them. Food is best when simply cooked. Corn flakes and similar preparations cost several times as much as the same amount of nourishment would cost in corn meal. The great waste in foods should be eliminated if at all possible. Potato parings make as good food as large pieces. A man tried it and took fifty potatoes from a hill. It is best to let potato pieces cut for seed remain a while before planting.

A great many good suggestions were made by the young lady who is so well posted in the subjects of which she treats. More and more she emphasized the fact that brains are needed in housewifery as everywhere else. At hotels and all places where meals are served so much more than it eaten is set before the guest and thus much waste ensues.

Bovine History.
At the chautauqua yesterday afternoon W. W. Marple made an address with "The Trail of the Lonesome Cow" as his theme. Mr. Marple, who is president of the Fox River Butter Makers' Association, is a creamery operator of long experience and his address which was of special value in pointing to the importance of the dairy industry, was of general interest. Mr. Marple is accustomed to platform work and he did not make his "story of the cow" a compilation of statistics to show simply the dollar value of the industry but really made it a story which held the interested attention of all his auditors. He traced the history of cows from the days of the children of Israel, saying that cows were held as a reward for the Israelites for their faithfulness and they were promised a "land flowing with milk and honey." Just how Mr. Marple might verify his facts about the status of the cow a few thousand years ago doesn't matter much, but he could easily prove his statements about the relation that the cow has had to the development of various states in the union.

The Growth of Four States.
He referred first to the growth of the dairy industry in some of the New England states and after tracing the cow "along her trail toward the western country" he cited the particular instances of Wisconsin, Minnesota, Kansas and Nebraska as states where the dairy industry has succeeded to develop the country and at a particular period of stress turned the residents of the farms from

A TEXAS WONDER

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame back, rheumatism and irregularities of the kidneys and bladder in both men and women. Regulates bladder trouble in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment and seldom fails to perfect a cure. M. HODES

Ashland, Ill. Phone 85

penury to prosperity. The speaker pointed out the danger there is in overlooking the value of the dairy cow in times of agricultural prosperity. He gave records to show that it is when times are hard and crop conditions poor, that farming communities have turned to dairying as a certain means of relief. Wisconsin was a conspicuous example of this fact and it is related that years ago the influence of Gov. Hoard was largely instrumental in the development of the dairy industry. There are many instances of German farmers who after failure of crops were absolutely in want. Unable to return to their home country and with not enough means to seek any other land, they turned to Gov. Hoard for advice and thru his advice numbers of them were able to start in the dairying industry. Any one familiar at all with the records of that state knows the results. Northern Illinois was developed somewhat about the same time.

According to Mr. Marple there have been excellent advances made in southern Illinois in these last few years, as the people have come to know that their lands will make much better returns if dairying is made a part of the farming system.

A Friend in Adversity.

It is more difficult to develop dairying interest in central Illinois, where the lands are more fertile and the farmers as a rule more comfortably situated financially. The speaker called attention to the present danger to the dairy industry made plain by the decreased number of dairy cattle by comparison with the increase in population. This is due partially to the fact that high prices have led some farmers to sell dairy stock for packing purposes and the other fact of difficulty in securing labor and general farm prosperity which relieves farmers of the necessity of doing the exacting work that the dairy industry requires seven days in the week, and 365 days a year. So in this interesting fashion Mr. Marple traced the history of the cow in her relation to American farming and urged upon his hearers the danger of forgetting the value of dairying in times of general prosperity and turning only to the cow as a friend in the time of adversity.

The Boston Symphony sextette is made up of active members of the Boston Symphony, which has been termed the greatest orchestra. The men in this group are all finished musicians and the audience both afternoon and evening found that the chautauqua management used the correct sentence with reference to the sextette when they wrote, "To hear them is to enjoy a feast of revealed musical art."

The Struggle for Liberty

Gov. Hanly at the night session in discussing the theme "Our Climacteric Opportunity," reviewed the events preceding America's entrance into the war and in eloquent language he painted the struggle which is now going on between democracy and autocracy. He told of a conversation with a white-haired woman living in North Dakota and in the conversation he expressed the hope that it would not fall out that the U. S. would become involved in the European struggle. With flaming eyes this woman, who the eighty years of age was keenly in touch with world affairs, replied, "Such things do not 'fall out' but are ordered and caused, and if this war is the final struggle between democracy and autocracy we cannot keep out. We must fulfill our destiny." "She was right in concept and conviction," said the speaker.

Two Theories of Government

"There are two theories of government, the first theory that of autocracy represented by the Hapsburgs, the Hohenzollerns, the czars and the kaisers, exemplifying the belief that rights begin and end in the state—that men are not citizens but subjects—and that the limit of power is only its ability to enforce its will. The second theory of government is that proclaimed by Jefferson, established by Washington, enunciated by Lincoln and preserved by Grant—a theory of government based on the people's will, and that the purpose of the state is to preserve the rights born to man. These two theories are incompatible and irreconcilable. But our fathers conceived a theory of government 141 years ago. They organized democracy and bequeathed it to us. Three years ago in Europe democracy found itself face to face with autocracy.

"It could have abdicated but it chose to die free rather than to live in slavery. For two and a half years we held aloof and claimed that we were neutral. We forgot that during 141 years we had been teaching the people to love liberty and that therefore we could not escape helping to defend when the thing we taught was assailed. We did not realize this when the war began, altho autocracy knew that a war on autocracy was against that theory of government everywhere. That was the reason that the Russian government did not give its full strength to the war. When we did finally sense the situation we answered the cry of France and England for money and credit. Then we gave them men and now we are providing for more men and for the food that will keep their armies in health and strength. Our war preparations have given notice to the world that altho this is an amalgamated nation, made up from many peoples, still we are capable of solidarity of thought and action. Autocracy may not have sensed this but it will in the days to come."

The speaker then went on to assail the liquor traffic as the only element of society which has held aloof in our war preparations and demanded that its affairs be not disturbed. In vigorous invective he attacked the liquor interests for their unwillingness to stop the manufacture of liquors when the food-stuffs being used in liquor manufacture would add so materially to the food supply on which the result of the struggle of the armies depends. Gov. Hanly voiced disap-

pointment that the president when the crucial hour came was not willing to have the liquor industry of the country put out of business at this time because he feared that an upheaval in domestic affairs would occur which would interfere with war preparations. This statement of the president, the speaker said, gave a right indication of the means to which those who control the liquor industry will go to secure their ends. "If Lincoln had been president at such a time," the speaker said, "the result would have been different." Gov. Hanly found reason for hope of ultimate liquor suppression by the fact that the question of amending the constitution is to be voted upon by the several states and victory for the dry forces in only ten more states is needed to put an end to the liquor business in this country.

Women's Part in War

At the conclusion of Gov. Hanly's address Miss Harriet Vittum spoke briefly. Miss Vittum, who is one of the most prominent club women of the state, talked on "What Women can do in War Preparations." She told of the proposed registration of women for various classes of war duties, referred to the necessity of continuing faithfully the Red Cross work and of the need for earnest attention to food conservation. Miss Vittum is representing the Illinois division of the national council of defense. The work of the women in this connection is to be conducted thru the woman's clubs because the organization of woman's clubs extends to practically every county of the state. Miss Vittum is a speaker of unusual force and her audience was thoroughly interested last night.

Notes.

At an unseemly hour yesterday morning a lot of young bloods tried to take possession of the grounds and marched about making things unpleasant for all. The night watchman called them down but they were boisterous till a call was sent in for city police and then they subsided.

There are two tents on the ground which were rented for anything but good purpose and gambling has been carried on in them. A chautauqua official caught the fellows directly at it Sunday and tried by moral suasion to stop the game but the boys were not to be talked out of it. They have sentinels posted all around and at the approach of a policeman they cover up all signs of the game. Yesterday morning Commissioner Edgar Martin went out and had a conference with the chautauqua people and promised the full cooperation of the city authorities to stop the evil.

There was an agreement with Mr. Spaulding that there would be no more dancing in the pavilion this week and this plan will be carried out.

POULTRY SHOULD BE CHEAP

A Surplus of Nutritious Food is Available if Retailers Will Take Small Profits.

Washington, D. C., Aug. 19.—A present congestion in the frozen poultry market, shown by figures of the United States Department of Agriculture, can be relieved if the retail dealers will handle the goods at a reasonable advance over wholesale prices. This action would make poultry available at prices comparing favorably with other meats according to the findings of a conference just held here between wholesale poultry distributors and officials of the Department of Agriculture. Both parties to the conference say that more poultry should be eaten when the facts are understood by the consumer; and an increased use of poultry now in the opinion of the department, will tend to conserve other meats which are of more importance to Americans and their allies in Europe. The retailers, as well as wholesalers, it is pointed out, should aid in relieving the congestion.

Broiling chickens are especially abundant and those of prime quality sold in June on the wholesale market in New York at an average price of 22 cents a pound. A year before the average price was 27 cents during the same month. There are unusually heavy holdings of dressed poultry in cold storage. Unless these stocks are moved quickly, farmers who have increased this year's flocks in response to a patriotic appeal will not have normal marketing conditions when their surplus comes on the market.

The parties to the conference agreed that the storage supplies of poultry in the summer of 1916 were unusually low because of small original holdings and large export demands. This resulted in unusually high prices to producers during the fall and winter of 1916. The supply was unexpectedly heavy and large stocks were stored at high costs. Then export demands fell off, the wave of economy affected the home demand, and the storage stocks moved slowly. The net result, according to the department, is that almost everybody ought to enjoy chicken dinners now at decidedly reduced prices, and without a feeling that they are using up needed meat supplies. In short, it is said to depend on the retailers whether cheaper chickens will be available.

STOLEN MONEY RECOVERED.

Mexico City, Aug. — About 100,000 pesos taken by bandits from a train attacked between Aguas Calientes and Mexico City has been recovered. The money was found in the possession of Felipe Hernandez, formerly an officer in the Mexican army who turned bandit and who recently was captured and shot by troops of General Miguel M. Acosta near Guadalucazar, San Luis Potosi.

ONE KILLED; ONE INJURED

Savanna, Ill., Aug. 21.—William Morris was killed and James Johnson probably fatally injured in the switch yards here today. A freight train collided with a switch engine.

TO INCREASE MEAT SUPPLY

Washington, Aug. 21.—In an effort to increase the nation's meat supply, the forest service, it was announced today, has furnished facilities on the national range for about 100,000 more cattle and 200,000 more sheep than in ordinary years. Heretofore, pasturage has been furnished for about 1,800,000 cattle and horses and 7,800,000 head of sheep each year.

CALLED ON PRESIDENT POINCARÉ

Paris, Aug. 21.—William G. Sharp, the American ambassador, called on President Poincaré yesterday to present his felicitations on the occasion of M. Poincaré's fete day. President Poincaré in reply asked Mr. Sharp to transmit to President Wilson his warmest wishes for him and the United States.

Berlin, July.—A gas office has been established by the Rawstuffs Department of the War Office. It is designed to conserve the gas supply thruout the country during the winter of 1917-18. It is authorized to extend existing gasworks or build new ones or to take any other measures which may seem necessary to ensure that enough gas will be available for illuminating, cooking, heating and industrial purposes.

HEARD SCHUMANN-HEINK.

W. E. Hall, deputy circuit clerk, and Mrs. Hall have returned from a pleasant western trip of three weeks. They went first to Holdrege, Nebr., to spend a few days with Mr. Hall's father, who is a practicing attorney there. Subsequently they were in Omaha, Denver and in several other Colorado cities. At Holdrege they attended the opening night of the chautauqua, where Schumann-Heink furnished a concert program. Holdrege has a well established chautauqua and a permanent pavilion was built several years ago.

SCOTT COUNTY BOARD IS
HAVING EXAMINATIONList of Rejections Announced for
First Two Days—News Notes of
Winchester People.

Winchester, Ill., Aug. 21.—The Scott county exemption board was very busy Monday and today in the physical examination of 100 additional men called out for the filling of the quota. The list of those who appeared for examination Monday and failed to pass was as follows:

James Earl Welch, Winchester; Homer M. Boatman, Manchester; Samuel Dixon, Winchester; Hiram C. Newingham, Alsey; Roy Gray, Naples; Gus Allen Anders, Naples; Samuel Thomas Taylor, Roodhouse; Marion Franklin Wallace, Manchester; Otis M. Campbell, Winchester; William F. Boester, Winchester; Charles Fox, Hillview; Hardell H. Hook, Bluffs; George Elmer Smith, Bluffs; Oscar C. Killbrew, Glasgow; Shelby C. Brackett, Exeter; Jesse M. Young, Glasgow; Theophilus D. Smith, Glasgow.

Those rejected Tuesday were: James H. Carlton, Winchester; Rollie O. Perry, Bluffs; Oscar McGlasson, Alsey; Jesse Lee Cannon, Naples; John Coates, Winchester; Henry W. Summers, Winchester; Loren C. Burbank, Bluffs; Elza F. Hatfield, Naples; Lester W. McDonald, Jacksonville; Frank T. Summers, Manchester; Ernest R. Herron, Manchester; Oscar Gregory, Naples; Robert Daniels, Hillview; Elmer Drake, Montezuma; Guy H. Kelly, Manchester; Frank E. Korty, Winchester; Harry Hires, Winchester.

Personal Mention.
Charles Williams of Chicago is visiting his mother, Mrs. M. E. Williams.

Rev. and Mrs. G. E. Prewitt and daughter, Miss Nylene Prewitt, attended the Jacksonville chautauqua Monday.

L. Fortendach left Tuesday for his home in Canton after a visit at the home of Mr. and Mrs. Charles Townsend.

Miss Maude Moses left Tuesday for a visit in Roodhouse.

Roy Pate left for his home in St. Louis after a visit at the home of Dr. George C. Brangle and family.

Miss Sadie Townsend has returned from Canton, where she visited Mr. and Mrs. Ray Portenbach. Miss Louise Townsend remained for a longer visit.

Byron Summers has returned to his home in Meredosia after a visit with Mr. and Mrs. J. V. Dugan.

Mrs. John E. Coultas, daughter Loretta and son Elmo Coultas, left Sunday afternoon for St. Louis, where Mrs. Coultas went to purchase goods for her millinery store. Her son, who enlisted a number of weeks ago and who has been at home on a furlough, left St. Louis for his camp Tuesday.

Corwin Mason arrived Monday afternoon from Canton to visit at the home of his grandparents, Mr. and Mrs. Robert Mason.

Thomas Chamberlain of the First National bank at Brighton and Irwin Clark, real estate dealer of the same place, were here Monday to testify in the case of "The People vs. A. J. Johnson," which came up in the court of Justice Andell. Mr. Johnson was held for the October term of court and is now in jail.

SYMPHONY SEXTETTE TO
PLAY AT G. A. R. CAMP FIRE

When the writer was discussing the program for the G. A. R. campfire today Mr. Heintz of the chautauqua association, kindly suggested that possibly the Boston Symphony Sextette might be willing to aid with a few numbers which would be very desirable if they were willing and accordingly the writer went out to the grounds last evening and the matter was suggested to Prof. Gilbert.

"Good idea but will such eminent musicians be willing to give you the music you desire? I am really afraid not altho the manager, Mr. Kuntz is generous hearted."

"No harm in trying anyway."

When the members of the sextette appeared, with much anxiety the writer was introduced to Mr. Kuntz and Mr. Heintz proffered the request.

"Certainly," was the kind reply; "we shall be glad to give you anything we have. What would you like?"

"Something popular, naturally."

The great musician said they could give "Old Black Joe," "Dixie," "Old Kentucky Home" and similar selections and with many thanks their kindness was accepted. Turn out today you old soldiers and everybody else who loves the heart songs and the other things that will be offered.

ANNOUNCEMENT

I hereby announce myself as a candidate for the Republican nomination for county commissioner at the primary election, Sept. 12.

WILLIAM ROOK.

AN AUTOMOBILE PARTY.

R. J. Bratner, wife and children, Mrs. R. J. Huber and children, the former from New Salem, Mo., and the latter from Browning, Mo., arrived in the city yesterday in their Ford car on their way to New Lexington, Ohio. They were from the newer part of the poor old state and were much impressed with several things they saw here. One thing especially caused them to wonder and it was the Woolworth 5 and 10 cent store and they examined it quite at length, remarking on the wonderful variety and remarkable cheapness of many things there.

"JERRY" AKERS HERE.

Earl "Jerry" Akers of Quincy, was a visitor in the city last night. Akers was one of the best pitchers on the Jacksonville baseball club in the days of the old Kitty league and Central Association. He quit playing ball several years ago and is now in business in Quincy. He is looking fine and was glad to greet his many friends in this city again.

CAPT. W. T. HARMON HERE
FOR BRIEF VISIT

Jacksonville Men Recently Commissioned at Ft. Sheridan Must Report at Rockford by August 29th

Capt. William T. Harmon is in the city for a visit of a week at the home of his mother, Mrs. Catherine Harmon, 516 E. College avenue. Capt. Harmon in addition to other officers commissioned at Ft. Sheridan, has leave of absence for the present and must report at Rockford not later than Wednesday, Aug. 29. "Coach" Harmon who has now changed that familiar title to the even more imposing one of captain, shows the result of his vigorous three months' training at Ft. Sheridan. His strong, well knit figure is seemingly stronger and his face has taken on that tan which is always indicative of our military men.

Capt. Harmon was originally assigned to Co. 13 at Ft. Sheridan and subsequently became a member of Co. 8. When the men first went to Ft. Sheridan they were all given the same training for a period of a few weeks and then they were assigned to different companies in accordance with the particular line of training they were to have—infantry, cavalry or artillery.

Work Well Planned
In conversation yesterday the Jacksonville man expressed his admiration for the systematic work done at the camp and the excellent arrangements that it had been possible for the department to make in a comparatively short time. Frequently the results accomplished are more apparent to an outside observer than to one within the ranks, but this was not so at Ft. Sheridan and the men in training could easily see the development in their fellows and knew something about their own advancement.

Co. 8 originally had 167 men but as time went along the ranks were thinned out until this number was 121. Out of the number 12 received commissions as captains, 15 as first lieutenants and 43 as second lieutenants. The greater number of these officers commissioned were assigned to the officers' reserve corps. Of the 12 men commissioned captain the greater number are from Chicago and vicinity. They represent various walks of life and nearly all of them are college men and the same is true of the first and second lieutenants. Of the captains one had been a buyer for Mandel Bros. store in Chicago, three had been practicing lawyers, one or two teachers, another a surveyor and all of them had been leading active business or professional life. One of the first lieutenants commissioned was Mr. McLaughlin of Aledo, who had been coach at Williams and Vashit college and so was known to Capt. Harmon in college sports relationships.

Different Assignments

When the men were commissioned five were assigned to troops soon to leave for France. A number did not receive commissions. One of these was recommended for the aviation corps and a number for the second school of instruction. Still others were assigned to the quartermaster's department and it was suggested to some that they make application to the regular army for appointment to minor offices. Naturally every man who failed to receive a commission was keenly disappointed, for no man who had gone thru the three months of arduous training whose heart was not in his work or who did not have an earnest desire to enter actively into army service. Capt. Harmon does not know to what department of work he will be assigned. He and others commissioned as captains from Co. 8 are likely to be the officers of a regiment of infantry in training at Rockford. Just how long the men will be trained at the camps no one knows, but from statements made it is assumed that the period of training will not be less than four months.

Large Companies Possible

Capt. Harmon commented on the Pershing advocating the French system of companies of about 250 men instead of companies of the regulation size in vogue in the U. S. army at present. The commissioning of so many lieutenants indicates to some extent an intention to carry out this plan of organization. A company of 250 would probably have a senior and junior captain and two first lieutenants and two second lieutenants. It is understood that the warfare plan at the army front is much better adapted for companies of 250 size than for the smaller companies. Naturally Capt. Harmon is greatly enjoying a visit here with his mother and friends, but he does not conceal the fact that he has felt deeply his country's call and is anxious to get into service for which he is now so adequately prepared.

GRAND ARMY DAY

AT THE CHAUTAUQUA
This is Grand Army day at the chautauqua and while the old boys will not have their esteemed comrade, Bishop Fallows, to address them a program of an hour's duration will take place the first thing in the afternoon about 1:30. Old war time songs will be sung, Miss Esther Spoons will kindly give a war time recitation, Prof. Rayhill will favor the boys with a recitation. There will be other features, war time stories and many things for the boys.

Then later on the good ladies of the Relief Corps will serve a supper.

FAREWELL RECEPTION
FOR BLUFFS MINISTER

Rev. C. H. Smith to Leave in Short
Time for Kansas City—Stone Family
to Remove to Beardstown—
Other Bluffs News Notes.

Bluffs, Aug. 21.—The teachers of the M. P. Sunday school gave a farewell reception Monday evening for Rev. and Mrs. C. H. Smith, who will leave in a few days for their former home in Kansas City, Kas. A short program was given after which refreshments of cream and cake were served. About forty were present and a very pleasant evening was passed.

Mrs. R. H. Stone and children left Tuesday evening for Beardstown to attend the fish fry there and to visit her husband who has been employed as a barber in that city. Mr. Stone has conducted a barber shop here for several years. They will remove their household goods to Beardstown as soon as they find a suitable location.

Misses Genevieve Factor of Alton and Nina Engles of Mt. Sterling are guests of Miss Lella Thomas.

Mrs. Paul White and son Donald of Keokuk, Ia., are visiting her parents, Mr. and Mrs. Jack Mains.

Mrs. Rebecca Hale is visiting her daughter, Mrs. Ira Price of Wapella.

Mrs. Lee Towning and daughter and children of Peoria, Clate Sappington and Miss Kathleen Sappington of Winchester spent Sunday with Wm. McLaughlin and family.

Miss Leetha Reed left Monday for a few days' visit with relatives in Griggsville enroute to her home in Denver, Col.

Mr. and Mrs. John Vanner will return to their home in Hildreth, Neb., Thursday after a two weeks' visit with relatives here.

The Waverly picnic which was to be today is postponed until Sept. 3, Labor Day.

CARD OF THANKS.

We wish to express sincerest thanks to the many friends for their kindly acts during our recent bereavement and also for their beautiful floral offerings, and to express especial gratitude to the band for their last tribute.

Mrs. B. F. Ragsdale,
Mary Adele Ragsdale,
Mrs. Nelle Decker.

SUFFERS SERIOUS ACCIDENT

Word has been received of an unfortunate accident which has happened to Mrs. Julia Pierson, mother of Mrs. John R. Robertson, in Colorado. No particulars have been received but in some way Mrs. Pierson fell and a fracture of her right leg resulted. The accident is the more serious because Mrs. Pierson was injured in about the same way several years since.

—LITERBERRY—

Mrs. Cleveland Butler and daughter of Vandalia, Mo., are here for a visit with Mrs. Butler's parents, Mr. and Mrs. G. T. Litter.

Mrs. Frank Hitchens and son of Ringwood, Ill., are here for a visit with the family of J. S. Hitchens.

Mr. and Mrs. John Myers, Misses Grace and Mae Myers, Carl Cooper, Mr. and Mrs. A. W. Petefish, Miss Lora Petefish and Dewey Petefish were in Springfield Sunday. They went to see Earl Myers and Orville and Jesse Petefish, all three of whom enlisted and have recently been in camp there.

Mrs. Al Chapman has as her guest, Miss Pauline Dawson of Jacksonville.

Mrs. Elizabeth Litter returned to her home here Monday from Passavant hospital, Jacksonville, where she has been taking treatment for the past two weeks.

Miss Thelma Litter is enjoying a vacation from her duties as operator for the Central Union Telephone Co. here. A part of the time she will spend at the Jacksonville chautauqua.

Mr. and Mrs. Edgar Cooper were visitors Monday in Jacksonville.

ANNOUNCEMENT
I hereby announce my candidacy for the nomination for the office of county commissioner, subject to the decision of the Republican primary, September 12, 1917.

FRED J. SCHOLFIELD.

PROBATE COURT.
In the estate of Gottfried Eckels, final report was approved and the estate declared closed.

In the estate of William Nunes, a supplementary inventory was filed. This inventory lists some personal property not previously on record and shows that the executors have collected something more than \$15,000 of insurance. The policies paid were Penn Mutual \$5,044, Connecticut Mutual \$8,069, Prudential, \$2,000, Equitable Assurance Co., \$200. Objections have been made to allowance of claim of John E. Pires for \$10,358.32, against the Nunes estate. This claim is based on a note for \$10,000 dated May 27, 1916, bearing interest at the rate of 3 per cent. The heirs of Mr. Nunes have joined in objection to this claim and will be represented by Bellatti, Bellatti & Moriarty. The heirs who have filed objections are Mrs. Grace Nunes, Mrs. Mayme Henderson, Mrs. Lucille Lane, George and William Nunes. The hearing on this claim will probably be sometime in September before Judge Thomson.

You can get an elegant affair or you can get one for less money; all machinery first class and a serviceable car.

MERRITT FESTIVAL
WELL ATTENDED

Ladies' Aid Society Gave Social Saturday Evening—Band Has Numerous Engagements—News Items from Merritt Neighborhood.

Merritt, Aug. 21.—The ice cream festival given by the Ladies Aid Society Saturday evening was very well attended.

Mrs. Wm. Wiseman of Alton after spending a few days at the home of George W. Hardwick returned to her home Monday.

Mr. and Mrs. Kirkland of Erie, Ill., visited at the home of E. M. Chrisman last week.

George W. Hardwick has purchased a new "Pilot" motor car. The band furnished music for the big picnic at Franklin last week and the boys feel that they could not have been treated nicer anywhere or by any organization than they were by the people of Sacred Heart church.

Kathryn Morris spent a few days with relatives near Pisgah last week. Mr. and Mrs. W. D. Hitt were Jacksonville visitors Saturday.

Follow the band this week and you will find yourself at Sears Grove on Wednesday and at Glasgow on Thursday, and at Beardstown Friday.

Mr. S. P. Smith of St. Louis visited at the home of J. H. Hawk a few days last week.

Norman Campbell attended the Chautauqua at Jacksonville Sunday evening.

The rain Tuesday morning was very much needed as it will be a great benefit to the corn crop.

Mrs. S. P. Smith returned to her home in St. Louis Tuesday.

The Hawks were calling on friends in Jacksonville last Saturday.

Mrs. John Barry was a Jacksonville visitor Sunday.

Mr. James Barfield has purchased a new Ford.

Allen Chrisman and John Boyd started on a trip to the northern part of Michigan last Saturday morning. They expect to be gone about three weeks.

S. C. Berry shipped a car load of cattle to St. Louis Monday.

Wanted — An experienced

woman to do general housework. Apply 720 West College avenue.

FIRE NEAR PALMYRA.

M. C. Hook & Co., Tuesday received notice of the destruction of a barn on the farm of Mrs. Sara C. Coleman, near Palmyra. The fire, which was caused by lightning, took place Monday afternoon.

LICENSED TO MARRY.

Albert Mollenbrok, Jacksonville; Rose Phalen, Jacksonville; William H. Roper, New Berlin; Sylvia Emory, Waverly.

IT WAS MADE IN GERMANY

A short time since Messrs. Coover & Shreve sold a customer a dressing case and the purchaser mailed it to a person in Canada and advised him of the fact but instead of delivering the article the custom house authorities summoned him to appear before them.

Wondering what could be wrong the man went as bidden and was confronted with an offending pair of scissors in the case and containing the once familiar legend, "Made in Germany" and was told that explanations were in order. He recalled the article had been sent him from Jacksonville, Ill., and that was all he could tell but they told him he would have to produce an affidavit that the merchants selling the goods had bought them before the present war or the whole thing would be confiscated. Fortunately

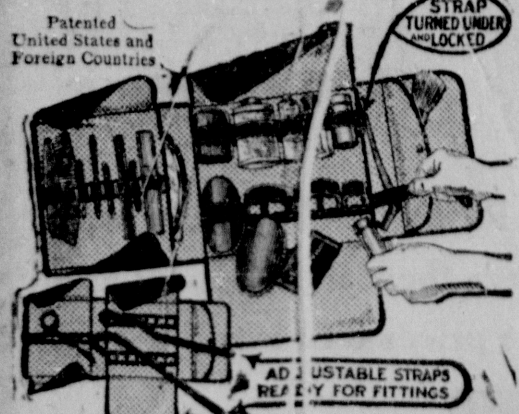

Messrs. Coover & Shreve were able to send such an affidavit which they did and probably the consignee will get his goods in time.

This may seem drastic but when we reflect on the cruelty of the Germans at war, the wanton destruction of life and a host of evil deeds the British antipathy to anything made in that land can hardly be wondered at very much.

The Waverly picnic which was to be today is postponed until Sept. 3, Labor Day.

ATTACHMENT SUIT FILED.

A suit in attachment has been filed in the circuit court by W. T. Wilson as attorney for Jacob Cohen. The suit is directed against B. F. Page and L. R. Duncan and sets forth a claim for damages in the sum of \$840.

FITALL ADJUSTABLE

RED CROSS SENDS SUPPLIES TO RUSSIA

In Response to Urgent Request from Dr. Frank Billings—Russia Has Difficulty in Securing Enough Hospital Equipment for Proper Care of Army.

Washington, D. C., August 21.—In response to an urgent request from Dr. Frank Billings, head of the Red Cross Commission to Russia, the American Red Cross is sending a large quantity of medical and surgical supplies to meet the urgent needs of the Russian military hospitals. This supplement an earlier consignment which was forwarded for immediate use when the Commission sailed to investigate the Russian situation.

The Commission carried with it \$200,000 worth of material, including among other supplies over 50 microscopes and 45,000 slides; 4600 clinical thermometers, 288 operating knives, 23,000 lengths of catgut, 1,700 ice caps, 175,000 morphine sulphate tablets and 200,000 antiseptic tablets.

Russia has had great difficulty in securing enough hospital equipment and supplies to take care of her large armies. Both shipments were planned to include a well-rounded stock of the most useful chemicals and apparatus.

In the new consignment for which the War Council appropriated \$160,000, there are 180,000 tablets of quinine sulphate, 1000 lbs. of chloroform, 10,000 tablets each of atropin and strychnine for hypodermic injection, 50,000 doses of anti-typoid vaccine, also tetanus anti-toxin and diphtheria, smallpox, cholera and plague vaccine, 10,000 lbs. soap, 25 dozen hot water bottles, 10,000 lbs. of gauze dressings and pads, 10,000 bandages and rolls, 1,000 blankets and 6 dozen stethoscopes, and various laboratory supplies.

Among the other items in the shipment are these: 5000 cc. digitalis, 1000 cocaine tablets, 20 collapsible operating tables, 14,400 needles, 200 lbs. rubber tubing, 20,000 lbs. absorbent cotton, 5000 safety pins.

Commission to Make recommendations. This unit of supplies was purchased in accordance with a plan carefully worked out by Dr. Billings and his Commission, which includes experts in medicine, public health,

dietetics, social service, and transportation. The Commission is receiving the full co-operation of the Russian Government, and will shortly make a detailed report to the War Council of the ways in which the Red Cross can most effectively aid Russia. On its recommendations the entire Red Cross program for Russian relief will be based.

Henry P. Horn, formerly a vice-president of the New York, New Haven and Hartford Railroad, a member of the Commission is co-operating with the American Railroad Commission previously sent to Russia in securing the quickest possible handling of these and the other relief shipments which will follow as they are called for by Dr. Billings. He has worked out a plan for identifying Red Cross consignments so that Russian railway men will facilitate their movement, and in spite of the congestion of the railroads it is hoped that these supplies will be in the hands of surgeons and nurses in the Russian army hospitals in a short time.

Red Cross Supports Pershing. The American Red Cross is supporting and will continue to support General Pershing and his troops in France to the limit of its power.

"No need of our army which we can possibly foresee will be left uncovered," cables Major Grayson M. P. Murphy, head of the Red Cross Commission in France. In order to facilitate his work, Major Murphy, a West Point graduate who saw service in the Spanish-American war, has been appointed to General Pershing's staff, and the whole Red Cross campaign is being conducted with a view to the fullest cooperation with the wishes and policy of the American commander.

The Red Cross has perfected plans to care for each contingent of troops as they land. On the route from the reception camp to the training camps, a journey which sometimes takes 72 hours, owing to the congestion of the French railroads, there have been established six infirmaries and rest-stations, each in charge of a trained nurse and an assistant, to care for soldiers who are ill on the way.

Acts as Friendly Agency. When the men reach camp, the Red Cross will continue to act as a friendly agency to supplement what the Army itself does to make the men comfortable and to preserve their morale. Cigarettes to the number of a million and a half, 20,000 packages of smoking tobacco and 10,000 cuts of chewing tobacco have already been sent to France for their use.

Red Cross chapters are now working up a million pounds of knitting wool into garments for the use of both soldiers and sailors this winter, and will keep the men supplied.

At the railroad stations where soldiers will be waiting for train connections, as soon as their outline of alternate trench duty, reserve duty and leave begins, the Red Cross has arranged to provide canteens where they can rid themselves of the filth of the trenches and eat, sleep or amuse themselves in comfort.

Before the first contingent sailed the men were given comfort kits, each containing heavy socks, handkerchiefs, wash-cloths and soap, pencil and writing paper, a pipe and the makings, playing cards, a mouth organ or game, buttons, pins and other small articles. Further gifts will be sent over in time for the Christmas celebration at the front.

Hospital Units Recruited. Fully organized base hospitals, prepared for any emergency that the expeditionary force may meet, are now in France. These units were recruited by the Red Cross. The surgeons were drawn from the cream of the medical profession in the

United States; the nurses were specially selected for their fitness for this duty from those who had been enrolled, in accordance with rigid requirements, by the Red Cross. Thirteen thousand thoroughly capable trained nurses are now enlisted for such service as may become necessary.

Hospital supplies, drugs and instruments have been sent to France, and additional consignments will be shipped as they are called for by Major Murphy. Some of them will be made in France at workshops which the Red Cross will maintain thru the Red Cross chapters and the Surgical Dressings Committee, now affiliated with the Red Cross, hospital garments and dressings are being made continually in this country and will be forwarded to France as needed.

To Aid Men Cripples in Battle.

Dr. Edward T. Devine, director of the New York School of Philanthropy, has just sailed for France to study methods of restoring to self-support and usefulness men who have been crippled or blinded. A Red Cross Institute, for which Jeremiah Milbank of New York has given \$50,000, will be established in New York in accordance with the results of his investigations.

If Americans are captured, there is a Red Cross Bureau already organized at Berne which will maintain communication between prisoners in Germany and their homes in the United States, and will forward the supplies and foodstuffs which the men in the German prison camps will need.

MURRAYVILLE RESIDENT CELEBRATES BIRTHDAY

Albert Riggs Given Pleasant Surprise Sunday—Rev. W. E. Keenan Filled Pulpit Sunday—Other Murrayville News Items.

Murrayville, Aug. 20. — Albert Riggs was the victim of a pleasant surprise Sunday, his children and their families came home with well filled baskets and reminded him that it was his birthday. A splendid dinner was enjoyed and the day was spent in a social way. Robert Reid of Jacksonville came down in the afternoon and took their pictures.

Those present were Walter Riggs and family, Clinton Millon and family, Clifford Kitner and family of Murrayville, Herbert Riggs and family of Ceres, George Riggs and family, Charles Riggs and family and Basil Kitner and family of Jacksonville.

Mrs. Emma Fenstermaker of Jacksonville was a guest of Mrs. Mary Gunn from Saturday until Monday.

Mr. and Mrs. Harry Luke left Monday for St. Joseph, Mich., where they expect to reside in the future.

Mrs. Sarah Greenwalt of Manchester spent Sunday with her mother, Mrs. J. T. Neal.

J. W. Wright and Dr. J. H. Spencer were business visitors at Springfield Tuesday.

Mr. and Mrs. Edward Irwin and daughter, and Mrs. Richardson of Springfield, motored over and spent Sunday with Mrs. E. B. Irwin.

Mr. and Mrs. Bothenbuecher of Virden, are guests this week of the latter's brother, Charles Masters and family.

Mrs. Carl Newby and children are visiting her mother, Mrs. Arthur Clayton and family near Manchester this week.

S. A. Gunn of Jacksonville spent Sunday with his father.

Miss Marie Burns was a visitor at the home of her sister, Mrs. C. L. Blakeman, the last of the week.

Mrs. Lorenz Kehl and little daughter of Jacksonville were guests Saturday night and Sunday of Mrs. Birdie Grimsley and family.

Quite a number of our people attended the picnic at Franklin Thursday.

Miss Lula Coultas left Saturday for Central City, Neb., for a visit with relatives.

Misses Esther and Vernis Blakeman of Knapp spent last week with their grandmother, Mrs. N. A. Blakeman.

Mrs. Harry Cade is at the bedside of her mother, Mrs. Anna McCarty, who is reported quite ill at her home in Manchester.

Mrs. S. A. Gunn of Jacksonville visited A. J. Gunn Thursday. Mr. Gunn still remains in a critical condition.

Miss Ruth Mellon returned home Monday from a week's visit with friends in the Elm Grove neighborhood.

Rev. W. E. Keenan of Franklin Circuit and Rev. W. H. McGhee exchanged pulpits Sunday. Rev. Keenan was accompanied by his wife and son, and Misses Meta and Mary Darley. They were entertained at dinner by Mr. and Mrs. W. J. Wood and family.

Mrs. Harry Fish and children of East St. Louis visited from Saturday until Monday with her cousin, Mrs. Roy Clark and family.

Mrs. Dan Ring of Peoria spent Sunday with her mother, Mrs. James Burns.

Fred Lawson and Mrs. Eva Sexton of Manchester visited their grandfather, A. J. Gunn, Sunday afternoon.

Mrs. Annie Still and son Charles, and nephew, Fred Still, and Misses Lillah and Helen Hettick of Jacksonville were Sunday guests of Mr. and Mrs. William Still.

Leonard Sooy and family of Carlinville spent Sunday with his parents, Mr. and Mrs. Charles Sooy.

Mrs. John Osborne and family are enjoying a visit this week from her sister, Mrs. Horace Foreman and little daughter of Carroll.

H. G. Strang and family, Mr. and Mrs. C. F. Strang, and Mrs. Clara

**RUSSELL'S PITCHING
TRIMS RED SOX****WHITE HOSE TAKE THIRD GAME**

Not a Visitor Reaches Second Base
After First Inning—Gainer and
Gandil Engaged in First Fight After
Game—Other Results

Chicago, Aug. 21.—A fist fight between Del Gainer, Boston first baseman, and "Chick" Gandil, who plays first for Chicago, followed the third game of the important series today between the two leaders for the pennant, which the locals won 2 to 0. The race has been so close that the nerves of the players are at high tension.

Gandil claimed Gainer attempted to spike him in the fourth inning when he slid into first base with his feet high. Many of the spectators hissed the Bostonian. After the game the two players met in the local club's dugout. A brief argument was followed immediately by a clash between the two men. The struggle was short as the other players stopped the men.

The game itself was one of the hardest-fought of the series. It was a pitchers' battle between Babe Ruth and "Tex" Russell, with the latter having all the better of the argument.

Chicago won the game in the sixth inning. After one was out McMullin almost knocked Ruth down with a hot grounder. Eddie Collins followed with a hit to the right field fence, scoring McMullin. The other run, made by Chicago in the seventh, was a gift. The fourth ball on Risberg was wide, and the run to first. Before Agnew recovered the ball he had rounded first and was on his way to second. Agnew hurried his throw and threw wild to Barry, while Risberg slid to the bag. He scored a minute later on Russell's single to center.

Russell pitched a perfect game and was given some sparkling support. The first inning was the only time the visitors got a man to third base. No others even reached second.

No action was taken today in regard to the threatened protest on yesterday's game. Chicago now leads Boston by three games. The standing:

Chicago	Won	Lost	Pct.
Chicago	74	45	.622
Boston	69	46	.600

**Lemon Juice
For Freckles**

Girl! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.—Adv.

Cleveland, O., Aug. 21.—Cleveland defeated Philadelphia today 16 to 3. Pitcher Bagby, in addition to keeping Philadelphia's hits scattered made four hits and scored as many runs himself as did his opponents. Competitive military drills of the American league baseball clubs for the purse offered by President B. E. Johnson, who was present were inaugurated at the game.

PUBLIC SALE OF VALUABLE LAND

Monday, September 8th at 1 p. m. William and Alva Rexroat, administrators of the estate of the late Louis Rexroat, will sell at the home place, half a mile northeast of Concord, 588 acres of choice land. It will be put up in 20, 30, 40, and 50 acre tracts first, then enough will be put together to make a moderately sized farm and offered in that way and sold if it brings more than in small parcels. Also some horses, mules and personal property will be sold. Sale will take place rain or shine.

J. R. Bradshaw, Decatur, Auct. Wm. and Alva Rexroat, Administrators of the estate of Louis Rexroat.

A GOOD OATS FIELD.
Bert Harris of the vicinity of Alexander has just completed threshing forty acres of oats that yielded about 3000 bushels or a trifle more than 74 bushels to the acre. They were a good quality, sound and well filled.

Claude B. Fortune of Rochester is visiting friends here for a few days.

Hard Hitting Marks Second Game In Which Chicago Captures—Reds Trounce Giants 7 to 5—Other National League Score.

Philadelphia, Aug. 21.—Bender's remarkable pitching featured the double header with Chicago here today, Philadelphia winning the first game 6 to 0 and Chicago the second 4 to 2. It was Bender's third successive shutout and his fourth straight victory.

An error by Luderus and the hard hitting in the sixth inning gave Chicago the victory in the second game. Carter, who pitched for the visitors has been ordered to take his examination for the army at once. Score:

North Spur, Ben Ali and Bacelli Take Respective Events in Handy Fashion—Great Western Harness Meet at Omaha

Philadelphia, Aug. 21.—All three races on the second day's card of the Grand Circuit race meeting at Belmont track today were decided in straight heats. North Spur, Ben Ali and Bacelli taking their respective events in handy fashion, although there were close finishes in the 2:10 pace, which furnished a track record for an open pacing race of 2:04 in the second heat.

The 2:10 pace for the Adelpia Hotel stake of \$3,000 had only six starters, but it was hotly contested. Ben Ali was the favorite and justified the choice. Judge Moore and Game of Chance, made the pace in all three heats, two of them resulting in whipping finishes.

CORN MARKET

OPENS FIRM
Advances About 1 Cent Above Yes-
terday's Close—Small Amounts of
Wheat Changes Hands

Chicago, Aug. 21.—Firmness displayed
by corn early in the day, when depleted
holdings were enlarged, lost its force
later on the selling and prices, which had
advanced about 1c above yesterday's
closing figures, sagged below that level.
Short covering late in the session fol-
lowed the absorption of the offerings and
prices rallied. The close was steady at
3c lower to 3c higher with December
at 1.08 1/2c to 1.08 3/4c and May at 1.07.
Wheat finished steady at 22c, an ad-
vance of 5c over night. Oats 2c the
close were 3c higher to 3c lower. Provi-
sions held firm, ruling from unchanged to
1c higher.

Weather conditions in the corn states
were generally regarded as beneficial.
Cash demand was better, but there was
a comparative absence of news to at-
tract trader's attention. Shipping sales
were placed at 30.00 bushels.
Small amounts of wheat changed
hands to even up outstanding contracts.
September. Oats with less variation
price figures followed the course of
corn. Provisions made fair gains, the
20 hog which appeared today in the
yards encouraging buying.

Catarhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

**FIGHT
FOR YOUR LIFE**
Duty Demands
Robust Health
Fight to get it and keep it

Fight—fight day in and day out to prevent being overtaken by illness and all. Keep wrinkles from marring the cheek and the body from losing its youthful appearance and buoyancy. Fight when ill-health is coming with its pallor and pains, defects and declining powers. Fight to stay its course and drive it off.

But fight intelligently. Don't fight without weapons that can win the day for without the intelligent use of effective weapons the pallor spreads and weakness grows and a seemingly strong man or woman oftentimes becomes a prey to illness after all.

You will not find this class of persons in the hypodermis ranks. No unhealthy, dull, draggy, drooping persons in that line. It is a hale, hearty, robust aggregation of quick-steppers who view life in a joyous frame of mind and are mentally and physically equal to any emergency. Hypodermis stands for sound body and sound mind—it is the invigorating tonic of the times—powerful and unsurpassed as a health restorer, vitalizer and health preserver. Fight to hold the vigor of a sound body with hypodermis or to stay the process of decay and restore health and strength to you win. This tonic of amazing, wonder-working properties has been approved by physicians as a restorer and safeguard of health. It is a thoroughly scientific preparation of the very elements necessary to tone up the stomach and nerves, to build strong, vital tissue, make pure blood, firm flesh and solid, active, tireless muscles.

Hypodermis contains those mighty strength-producing agents, lecithin and iron peptonate, in a form best adapted to benefit the body and its organs. Its ingredients are absolutely necessary to the blood. In nine cases out of ten a run-down condition, sallow, pale complexion, nervousness, feeling and frail bodies are due to lack of lecithin and iron peptonate in the system.

Your mental and physical strength and endurance depends upon a healthy and iron peptonate laden blood; steady, dependable nerves and a healthy stomach. With these you can meet life at any angle.

This wonder tonic, hypodermis, which is as perfect as science can get to nature, meets every essential demand of the human organism. It is safe and sure and a boon to run-down, worn-out men and women. Hypodermis means nature's own way of bringing color to the cheeks, strength to the body and keeping the vigor and buoyancy of youth. The powder and paint way of effecting beauty is not needed by hypodermis women and girls. Their blood, filled with nature's beauty stores, creates conditions that give firmness and grace to the body and the glow of health to the cheeks.

No need of going through life sickly and always feeling miserable in this age of medical science. The hypodermis ranks. It puts into you the strength and vigor you ought to have and puts life into your body and mind that inspires the confidence that you confront the world on an equal footing with anyone.

Hypodermis may be had at your druggist's or direct from us for \$1.00 per package. It is well worth the price. The Santal Remedies Co., Cincinnati, Ohio.

MEREDOSIA MAN CALLED TO ARKANSAS

Henry Stover Left Sunday for Little Rock to Attend Funeral of Brother—Evangelistic Meetings to Continue Thruout Week—Other Meredosia News

Meredosia, Aug. 21—Howard Rhodes of Pittsfield was a visitor here Friday.

Miss Lillie Mohlman of Beardstown was the guest Friday of Mrs. W. G. Looman.

Miss Ethel Hedrick of Jacksonville.

Those Awful Cramps

Suggestions that may save Much Suffering

Marysville, Pa.—“For twelve years I suffered with

terrible cramps. I would have to stay in bed several days every month. I tried all kinds of remedies and was treated by doctors, but my trouble continued until one day I read about Lydia E. Pinkham's Vegetable Compound and I am recommending it to my friends who suffer as I did.”

—Mrs. GEORGE R. NAYLOR, Box 72, Marysville, Pa.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

Write for free and helpful advice to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Only women open and read such letters.

ville visited Friday with Mrs. Emil Brockhouse.

Mr. and Mrs. George Reed and daughter of New Berlin spent the week end with relatives here.

John Weeks Jr. of Arenzville was among the many visitors to this city Friday.

Mr. and Mrs. Frank Todd were among the many former residents who attended the Home Coming.

Mr. and Mrs. R. H. Duer of Springfield visited friends here Saturday.

Mr. and Mrs. Harry Butcher of Sinclair attended the Home Coming Saturday.

Arthur Cody wife and daughter Francis and son Willard spent Friday and Saturday with homefolks here.

Mrs. Albert Nunn of Chapin was the guest of her daughter Mrs. Maurice McLain Saturday.

George Hymes of Springfield spent a pleasant day recently with his brother, Frank Hymes and family.

Miss Estelle and Irene Bingham and Emma Fox are making preparations for the Hibernion chicken fry which will be held Sept. 6.

Lieut. Col. Kent Nelson, Medical Corps, U. S. Army, who has been on duty at Fort Leavenworth, Kansas for the past four years, has been ordered to Columbia, S. C., as chief surgeon of the cantonment there. He will be in the city Friday for a brief visit with his mother, Mrs. R. S. Nelson, and brother W. S. Nelson, while enroute to his new station.

WHITE HALL HAS NEW SWIMMING POOL

Many Attend Formal Opening Sunday—Old Landmark on Main Street Removed—Dr. Chapman to Serve in Medical Corps of U. S. Army—Other Greene County News

White Hall, Aug. 20—Mrs. A. E. Vosseller returned last week from Gethseberg, Neb., where she has been administering to the welfare of her new grand daughter.

Mr. and Mrs. A. Bubenhofer came over from Mexico, Mo., last week, and Mrs. Bubenhofer is continuing her visit among friends in White Hall.

Dr. and Mrs. W. D. Chapman arrived last week from Silvis, Ill., and the doctor has left for service in the medical corps of the U. S. Army. Mrs. Chapman has returned to Silvis to remain with her parents. Dr. Chapman is a son of Dr. and Mrs. H. W. Chapman of White Hall.

Mr. and Mrs. Lyman Winn came up from St. Louis Saturday evening for a week-end visit with the former's parents, Mr. and Mrs. W. A. Winn.

Attorney Mark Meyerstein Jr. has returned to Granite City, after spending several days here.

Miss Nell LaForte was down from Chicago last week on her annual vacation from duty with the Fort Dearborn National Bank.

Mr. and Mrs. William Thomas have terminated a visit among home folks and friends, and have returned to Covington, Ill.

Glen Clute, connected with the Peacock inn, was down from Jacksonville over Sunday.

W. A. Boehm, of St. Louis, was a recent visitor among old home folks and friends.

Miss Mabel Campbell, Mesdames R. F. Ballard and Frank Campbell were St. Louis visitors the latter part of last week.

Mrs. T. N. Cryder and son Harry returned to East St. Louis today, after spending a week here and in this vicinity.

Mrs. Annette Cheney and mother, Mrs. S. A. Higbee, arrived from Farmer City, Ill., Friday and will remain here indefinitely. Mrs. Higbee is quite feeble, owing to her advanced age, which is 95 years, but retains the use of her faculties to a marked degree.

It is estimated conservatively that two thousand people visited the chautauqua grounds Sunday the sole attraction being the opening of the new swimming pool. The program season at the chautauqua opens next Sunday, and the ingress of people last Sunday indicated a regular chautauqua day. Arrangements are being made for booster trips this week to Jacksonville and Springfield.

During the swimming festival last Sunday Ernest Camm fell backward from the top of the new dam, striking his head on rocks on the upper side of the new work, cutting gashes in his head that for a time indicated serious consequences.

Mrs. F. D. Vosseller left today for Potosky, Mich., on her annual summer visit on account of her health.

G. S. Vosseller was out for the first time in several days today, he having been laid up with a stomach disorder. Mrs. Vosseller is president of the White Hall National Bank and is one of the most remarkable of men, he being 85 years of age, and is active and diligent as a man forty years younger.

The last of the old landmarks was moved from Main street last week, this being the Nowak residence, which was built eighty years ago. The removal of the Nowak property is to make room for a more extended garage enterprise than could be accommodated on the site of the old hotel property, and both properties will be included in the proposition.

The old Nowak business building will be moved to the rear, and the office of the Central Illinois Public Service Company will be moved to the Chapin building as soon as J. Black moves his stove and tinware business to the room made vacant by the White Hall Republican suspending publication.

ANNOUNCEMENT

Dr. James A. Day of Springfield, Ill., will make regular weekly visits to Jacksonville and may be consulted at his office in the building formerly occupied by him as a hospital at 1008 West State St.

He will be at the above address, Wednesday, August 22, from 10:30 a. m. to 5 p. m. and each succeeding Wednesday until further notice.

GRIGGSVILLE

Mr. and Mrs. Anson Northrup spent Sunday in Barry with Dr. A. Sparr and family.

Mrs. W. Creasley arrived home from a weeks visit in Jacksonville with her brother, Floyd Butterfield and family.

Mrs. Larry Young fell and broke her leg just below the hip Thursday. She was taken to a hospital in Jacksonville.

OFF FOR OLD MISSION.

Mrs. Mary Fairbank residing on Grove street with her son, Arthur D. and daughter, Miss Georgia, have left for Old Orchard, Michigan, to be absent a time seeking rest and recreation.

IMPORTANT WHEAT AND RYE CONFERENCE

Representatives of the U. S. Department of Agriculture and Six States to Confer on Increased Plantings of Winter Wheat and Rye this Fall.

Washington, D. C., Aug. 21—A conference to discuss ways and means of increasing the production of winter wheat and rye in 1918, will be held at the call of the Secretary of Agriculture, in the Hotel Claypool, Indianapolis, Ind., beginning Monday, August 20. The State agricultural colleges, State commissioners of agriculture, and chairmen of the agricultural committees of the State councils of defense of Indiana, Ohio, Michigan, Kentucky, Illinois and Wisconsin have been invited to attend the Indianapolis conference. Dr. Raymond A. Pearson, Assistant to the Secretary, and a number of wheat and rye specialists will represent the United States Department of Agriculture.

The purpose of the conference is to discuss ways and means of bringing about in the six States named the planting of 10,923,000 acres to winter wheat and of 1,456,000 acres to rye this fall. This is the part assigned to these States in a national program calling for the planting of 47,337,000 acres to winter wheat and 5,131,000 acres to rye this fall, thruout the Nation, as recommended in the department's recently announced program for the increased production of these breadstuffs to meet the Nation's needs. Special consideration will be given to the planting of these acreages without disturbance of the 1918 corn and other crops.

The conference at Indianapolis is one of a series of regional conferences on this same subject, two of which already have been held, in Washington and Atlanta. After the Indianapolis meeting, the representatives of the department will proceed to other regional conferences to be held in Kansas City, Mo., August 22, and in Spokane, Wash., August 27.

Dr. Ferdinand King, a New York Physician and Medical Author, says: "There can be no vigorous iron men without iron. Pallor means anemia. Anemia means iron deficiency. A New York Physician and Medical Author says: 'The skin of the iron goes from the blood of the women, the roses go from their cheeks.'

In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, determining conditions, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and, silly methods of home cooking by throwing down the wastepaper the water in which our vegetables are cooked is responsible for another grave iron loss.

Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt.

Dr. A. J. Newman, late Police Surgeon of the City of Chicago, and former House Surgeon, says: "It has been my particular duty during the past six years to assist in keeping Chicago's five hundred and twenty-five thousand people in good health, and I have found that the perfect fighting trim so that they would be physically equipped to withstand all manner of storms and the ravages of nature."

Recently I was prompted through an endorsement of Nuxated Iron by Dr. Schuyler C. Jaques, Visiting Surgeon of St. Elizabeth's Hospital, New York, to give it a trial. This remedy has proven through my own tests of it to excel any

preparation I have ever used for creating red blood, building up the nerves, strengthening the muscles and correcting digestive disorders."

Dr. E. Sauer, a Boston physician who has studied both in this country and in great European Medical Institutions says: "As I have said a hundred times iron is the greatest of all strength builders. If people would only take Nuxated Iron when they feel run-down, instead of dosing themselves with habit-forming drugs, stimulants and alcoholic beverages I am convinced that in this way they could ward off disease, prevent becoming organically run-down, and thereby saving the lives of thousands who now die every year from pneumonia, grippe, kidney liver, heart trouble and other dangerous maladies. The real and true cause which started their diseases was nothing more nor less than a weak iron blood brought on by lack of iron in the blood."

Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man. In fact a young man he really was notwithstanding his age. The secret, he said, was taking Nuxated Iron. He had filled him with renewed life. At 30 he was in nearly health; at 40 he was careworn and nearly ill; now at 50 after taking Nuxated Iron a miracle of vitality and his face beaming with the buoyancy of youth.

Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant that grows in a soil deficient in iron.

If you are not strong or well you must make the following test: See how long you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while doubling their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days simply by taking the red coloring matter in the blood of iron. Iron is the proper form. And this, after they had in some cases been doctoring for months without obtaining any benefit.

Dr. E. Sauer, a Boston physician who has studied in great European Medical Institutions, says: "I have seen dozens of nervous, run-down people who were ailing all the while doubling their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days simply by taking the red coloring matter in the blood of iron.
